Ben Gunnerberg

Dato' Lim Kee Leng

Dato' Low Kian Chuan

Dato' Dr Tan Yew Chong
Moderator

Mohd Azanuddin Salleh

Dr Melvin Gumal

Dr Ismail Parlan
Future of forest and timber industry beyond 2030
Embrace the Fourth Industrial Revolution
Population Growth and Increasing Pressure on Forest is Sure
Climate Crisis is Real

Increasing occurrence of fires including tropical rainforests worldwide.
Future generations demanding present generation to take responsible actions for their future.

Logging blockade in Gerik
It’s our responsibility to ensure sustainable management of both natural and planted forests. Forest certification is key and more crucial now than ever.
TOGETHER WE CAN ACHIEVE MORE
“A nation that appreciates and internalises the full value and contribution of forest towards global sustainability”
MISSION

“MTCC is committed to strengthen the MTCS to realise the full value and contribution of forest through sustainable forest management and chain of custody certification”
“A world which values the full contributions of sustainable forests”
THANK YOU
