Date: 8 October 2015

**Addresses as listed (Sabah Stakeholders)**

Dear Sir/Madam,

**Announcement on the Review of the Malaysian Criteria and Indicators for Forest Management Certification (Natural Forest) [MC&I(Natural Forest)]**

The Malaysian Criteria and Indicators for Forest Management Certification (Natural Forest) or in short MC&I(Natural Forest) was published in January 2012 and adopted for use under the Malaysian Timber Certification Scheme (MTCS) in July 2012.

2. In accordance with the *Rules on Standard Setting Process for Development of Timber Certification Standards* (SSP3/2014) under the MTCS, the forest management standard is required to be reviewed at intervals that do not exceed a five-year period. Past experience has shown that a standard review process takes about two years to complete. It has therefore been proposed that the review of the MC&I(Natural Forest) be initiated in 2015 so that the review process can be concluded in 2017. The SSP3/2014 document is attached as **APPENDIX I** for your reference.

3. As you may be aware, the *Proposed Process and Timelines for the Review of MC&I(Natural Forest)* was presented at the MTCC Stakeholder Dialogue which was held on 28 July 2015. The process is expected to take 22 months to complete, involving the conduct of public consultations on enquiry drafts, meetings of Standards Review Committee (SRC), and regional consultations.

4. During the MTCC Stakeholder Dialogue, the possibility of merging the two forest management standards used under the MTCS, i.e. the MC&I(Natural Forest) and MC&I Forest Plantation.v2 into a single document was considered, based on a study carried out on this matter. The participants were generally in agreement that merging and streamlining the two forest management certification standards would be the pragmatic and logical approach to be undertaken in the upcoming review of the MC&I(Natural Forest).

5. The participants agreed that this approach would result in numerous benefits particularly in terms of savings of time, human and financial resources for the standard review process, for all parties involved, i.e. MTCC as the National Governing Body (NGB) facilitating the standard review process, the various stakeholder groups in participating in the standard review process, and the certification bodies in the need to undergo training and fulfil the accreditation requirements.

6. The participants therefore agreed that the upcoming review of the MC&I(Natural Forest) should consider incorporating the requirements of the MC&I Forest Plantation.v2 as a single document. The robustness of the certification requirements for the natural forest and forest plantation will be maintained and ensured through the deliberation of the SRC and the Malaysian stakeholders during the standards review process, with more time allocated for each meeting of the SRC to ensure adequate deliberation. The *Proposed Process and Timelines for Review and Streamlining of Malaysian Criteria and Indicators for Forest Management Certification* is attached as **APPENDIX II**.

7. As stipulated in the SSP3/2014 document, a committee will be established and be responsible for the standards review process. In this connection, a 15-member SRC comprising representatives nominated by their respective stakeholder groups, i.e. the relevant government agency, indigenous people, workers, environment and industry from the three regions of Malaysia, i.e. Sabah, Sarawak and Peninsula will be established to spearhead the standards review process.

8. MTCC has undertaken a stakeholder mapping exercise, with the materially and directly affected stakeholders being categorised in accordance with their expertise and the interest they represent as shown in **APPENDIX III**. Under this categorisation, some of the relevant government agencies such as Jabatan Kemajuan Orang Asli and Jabatan Alam Sekitar have been placed under the indigenous people and environment stakeholder group respectively based on their expertise and jurisdiction. Additionally, based on the feedback from the MTCC Stakeholder Dialogue, a separate category comprising representatives from the academic/research/professional bodies is proposed. Representatives from this category may be invited to serve as an advisory member of the SRC, on a case by case basis.

9. To ensure efficiency in the transmission of information to you in a timely manner, we would be grateful if you could **update your contact details**. We will also appreciate if you could **provide us with the contact details of any other organisation/agency** that should also be invited to participate in this review process. Please utilise the attached “*Stakeholder Comment Form*” to provide the above details as well as **your comments and suggestions on Appendices II and III**, either by e-mail to Mr Cheah Chi Ern ([cheah@mtcc.com.my](mailto:cheah@mtcc.com.my)) or by fax to 03-21612293 or by post to MTCC latest by **8 November 2015**.

We look forward to your cooperation and active participation in the forthcoming review process of the MC&I(Natural Forest). Information and update on the review process will be posted on the MTCC website at <http://www.mtcc.com.my>.

Thank you.

Yours sincerely,

SITI SYALIZA MUSTAPHA  
for Chief Executive Officer

No. Ruj.: (25) MTCC 7/1/6/3

Tarikh: 8 Oktober 2015

**Senarai Penerima (Pihak Berkepentingan Sabah)**

Tuan/Puan,

**Pengumuman Semakan Semula Kriteria dan Petunjuk Malaysia untuk Pensijilan Pengurusan Hutan (Hutan Asli) [MC&I(Hutan Asli)]**

Kriteria dan Petunjuk Malaysia bagi Pensijilan Pengurusan Hutan (Hutan Asli) atau secara ringkasnya MC&I(Hutan Asli) telah diterbitkan pada Januari 2012 dan telah digunakan di bawah Skim Pensijilan Kayu Malaysia (MTCS) pada Julai 2012.

2. Menurut *Peraturan Proses Penetapan Standard untuk Membangunkan Standard Pensijilan Kayu* (Rules on Standard Setting Process for Development of Timber Certification Standards) (SSP3/2014) di bawah MTCS, suatu standard pengurusan hutan perlu disemak semula dalam tempoh tidak melebihi 5 tahun. Melalui pengalaman lalu, proses semakan semula standard akan mengambil masa lebih kurang 2 tahun. Oleh itu, proses semakan semula MC&I(Hutan Asli) telah dicadangkan untuk bermula pada 2015 supaya proses semakan semula boleh dimuktamadkan pada 2017. Dokumen SSP3/2014 dilampirkan sebagai **APPENDIX I** untuk rujukan.

3. Seperti yang tuan/puan sedia maklum, *Cadangan Proses dan Rangkawaktu bagi Semakan Semula MC&I(Hutan Asli)* telah dibentangkan semasa Dialog Pihak Berkepentingan MTCC (MTCC Stakeholder Dialogue) yang telah diadakan pada 28 Julai 2015. Proses ini dijangka mengambil masa 22 bulan untuk dimuktamadkan, dan akan melibatkan konsultasi umum pada draf pertanyaan, mesyuarat Jawatankuasa Semakan Semula Standard (SRC), dan rundingan peringkat serantau.

4. Semasa sesi dialog tersebut, kemungkinan untuk menggabungkan kedua-dua standard pengurusan hutan di bawah MTCS, iaitu MC&I(Hutan Asli) dan MC&I Ladang Hutan.v2 ke dalam satu dokumen telah dipertimbangkan berdasarkan kajian yang telah dilaksanakan ke atas perkara ini. Peserta-peserta secara amnya bersetuju bahawa penggabungan dan penyeragaman kedua-dua standard pensijilan pengurusan hutan adalah pendekatan yang pragmatik dan logikal dalam proses semakan semula MC&I(Hutan Asli) ini.

5. Para peserta juga bersetuju bahawa pendekatan untuk menggabungkan dua standard dalam satu dokumen akan membawa pelbagai faedah, terutamanya dari segi penjimatkan masa, sumber manusia dan sumber kewangan dalam proses semakan semula standard, bagi kesemua pihak yang terlibat, iaitu kepada MTCC sebagai Badan Pentadbir Kebangsaan [National Governing Body (NGB)] yang memudahkan carakan proses penyemakan semula standard, pelbagai pihak berkepentingan yang terlibat dalam proses penyemakan semula standard, dan badan pensijilan yang perlu menjalani latihan serta memenuhi syarat-syarat untuk mendapatkan akreditasi.

6. Oleh itu, para peserta telah bersetuju bahawa dalam semakan semula MC&I(Hutan Asli), penggabungan keperluan MC&I Ladang Hutan.v2 ke dalam satu dokumen tunggal perlu dipertimbangkan. Kemantapan keperluan pensijilan untuk hutan asli dan hutan ladang akan dikekalkan dan dipastikan melalui perbincangan SRC dan pihak berkepentingan Malaysia semasa proses semakan semula standard, dan lebih banyak masa akan diperuntukkan bagi setiap mesyuarat SRC bagi perbincangan yang teliti. *Cadangan Proses dan Rangkawaktu bagi Semakan Semula dan Penyelarasian Kriteria dan Petunjuk Malaysia untuk Pensijilan Pengurusan Hutan* adalah dilampirkan sebagai **APPENDIX II**.

7. Seperti yang dinyatakan dalam dokumen SSP3/2014, satu jawatankuasa akan ditubuhkan yang bertanggungjawab atas proses penyemakan semula standard. Dalam hubungan ini, SRC yang mempunyai 15 ahli yang terdiri daripada wakil yang dicalonkan oleh kumpulan pihak berkepentingan masing-masing, iaitu agensi-agensi kerajaan berkaitan, orang asal, pekerja, alam sekitar dan industri daripada tiga rantau di Malaysia, iaitu Sabah, Sarawak dan Semenanjung, akan ditubuhkan untuk menerajui proses penyemakan semula standard.

8. MTCC telah melaksanakan aktiviti pemetaan pihak berkepentingan, dengan pihak berkepentingan yang terlibat secara material dan secara langsung dikategori mengikut kepakaran dan kepentingan yang diwakili seperti yang disenaraikan di **APPENDIX III**. Di bawah kategori ini, terdapat agensi-agensi kerajaan berkaitan seperti Jabatan Kemajuan Orang Asli yang dikelaskan dibawah kategori pihak berkepentingan orang asal dan Jabatan Alam Sekitar yang dikelaskan dibawah kategori pihak berkepentingan alam sekitar, berdasarkan kepada kepakaran dan bidang kuasa. Selain itu, berdasarkan maklumbalas dari Dialog Pihak Berkepentingan MTCC, kategori berasingan untuk wakil-wakil daripada akademik/penyelidik/badan ikhtisas juga dicadangkan. Wakil daripada kategori ini boleh dijemput untuk berkhidmat sebagai ahli penasihat kepada SRC mengikut keperluan.

9. Untuk memastikan maklumat berkenaan proses ini dapat disampaikan kepada pihak tuan/puan secara efisen dan tepat masa, kami berharap agar tuan/puan dapat mengemaskini **maklumat perhubungan tuan/puan**. Kami juga amat menghargai jika tuan/puan dapat **memberi maklumat perhubungan organisasi/agensi lain** yang difikirkan bersesuaian untuk menyertai proses semakan semula ini. Sila gunakan “*Borang Ulasan Pihak Berkepentingan*” yang dilampirkan untuk melengkapkan maklumat tersebut, serta **ulasan tuan/puan mengenai cadangan di Appendix II dan Appendix III**, melalui email kepada En Cheah Chi Ern ([cheah@mtcc.com.my](mailto:cheah@mtcc.com.my)) atau melalui faks kepada 03-2161 2293 atau melalui pos kepada MTCC sebelum **8 November 2015**.

Kami menghargai kerjasama dan penyertaan aktif tuan/puan dalam proses semakan semula standard MC&I(Hutan Asli). Maklumat mengenai proses penyemakan semula akan disiarkan di laman sesawang MTCC di <http://www.mtcc.com.my>.

Sekian, terima kasih.

**1. SCOPE**

- 1.1 This document provides the Rules to be followed in the standard setting process to develop the forest management standard used in the Malaysian Timber Certification Scheme (MTCS) operated by the Malaysian Timber Certification Council (MTCC).
- 1.2 The standard setting process may be carried out at national or at any sub-national level, and the standard drafted to be applied in individual, group and/or regional certification.

**2. NORMATIVE REFERENCES**

As the MTCC is a member of the Programme for the Endorsement of Forest Certification schemes (PEFC), it is important to ensure that in developing the standards used in the MTCS, the standard setting process complies with the PEFC Council requirements as follows:

- (a) PEFC ST 1001:2010 *Standard Setting - Requirements*;
- (b) ISO/IEC Guide 59:1994 *Code of good practice for standardization*; and
- (c) ISO/IEC Guide 2:1996 *Standardisation and related activities—General vocabulary*.

**3. TERMS AND DEFINITIONS**

For the purposes of this document, the terms and definitions contained in PEFC ST 1001:2010 (see list in **Appendix A**) and ISO/IEC Guide 2:1996 *Standardisation and related activities – General vocabulary* apply.

**4. STANDARDISING BODY**

- 4.1 The development of certification standards shall be supported and coordinated by MTCC as the standardisation body and be independent from the certification or accreditation processes.
- 4.2 The standardising body shall have written procedures for standard-setting activities describing:
  - (a) its status and structure, including a body responsible for consensus building and for formal adoption of the standard;
  - (b) the record-keeping procedures;
  - (c) the procedures for balanced representation of stakeholders;
  - (d) the standard-setting process;
  - (e) the mechanism for reaching consensus; and
  - (f) revision of standards/normative documents
- 4.3 The standardising body shall make its standard-setting procedures publicly available and shall regularly review its standard-setting procedures including consideration of comments from stakeholders.
- 4.4 The standardising body shall keep records relating to the standard-setting process providing evidence of compliance with the requirements of this document and the standardising body's own procedures. The records shall be kept for a minimum of five years and shall be available to interested parties upon request.

- 4.5 The standardising body shall establish a permanent or temporary working group/committee responsible for standard-setting activities. The working group/committee shall:
- (a) be accessible to materially and directly affected stakeholders;
  - (b) have balanced representation and decision-making by stakeholder categories relevant to the subject matter with equal representation of the following stakeholder groups: environmental, economic, social (indigenous peoples), social (workers' union), and relevant government agencies, and with balanced representation from the three geographical regions covering Sabah, Sarawak and Peninsular Malaysia, where single concerned interests shall not dominate nor be dominated in the process; and
  - (c) include stakeholders with expertise relevant to the subject matter of the standard, those that are materially affected by the standard, and those that can influence the implementation of the standard. The materially affected stakeholders shall represent a meaningful segment of the participants.
- 4.6 The standardising body shall establish procedures, which are accessible to stakeholders, for dealing with any substantive and procedural complaints relating to the standardising activities. Upon receipt of the complaint, the standardising body shall:
- (a) acknowledge receipt of the complaint to the complainant,
  - (b) gather and verify all necessary information to validate the complaint, impartially and objectively evaluate the subject matter of the complaint, and make a decision upon the complaint, and
  - (c) formally communicate the decision on the complaint and of the complaint handling process to the complainant.
- 4.7 The standardising body shall establish at least one contact point for enquiries and complaints relating to its standard-setting activities. The contact point shall be made easily available.

**5. STANDARD SETTING PROCESS**

- 5.1 The standardising body shall identify stakeholders relevant to the objectives and scope of the standard-setting work. In the case of forest management certification, the relevant stakeholder groups should represent the different aspects of sustainable forest management at national or sub-national level covering the social, economic, environmental interest groups and the relevant government agencies.

[Note: A stakeholder mapping exercise that includes defining which interest sectors are relevant and why, and for each sector what are likely to be the key issues, who are the key stakeholders, and what means of communication will best reach them, is a recognised means of meeting the requirement.]

- 5.2 The standardising body shall identify disadvantaged and key stakeholders. The standardising body shall address the constraints of their participation and proactively seek their participation and contribution in the standard-setting activities.
- 5.3 The standardising body shall make a public announcement of the start of the standard-setting process and include an invitation for participation in a timely manner on its website and in suitable media as appropriate to afford stakeholders an opportunity for meaningful contributions. The announcement and invitation shall include:

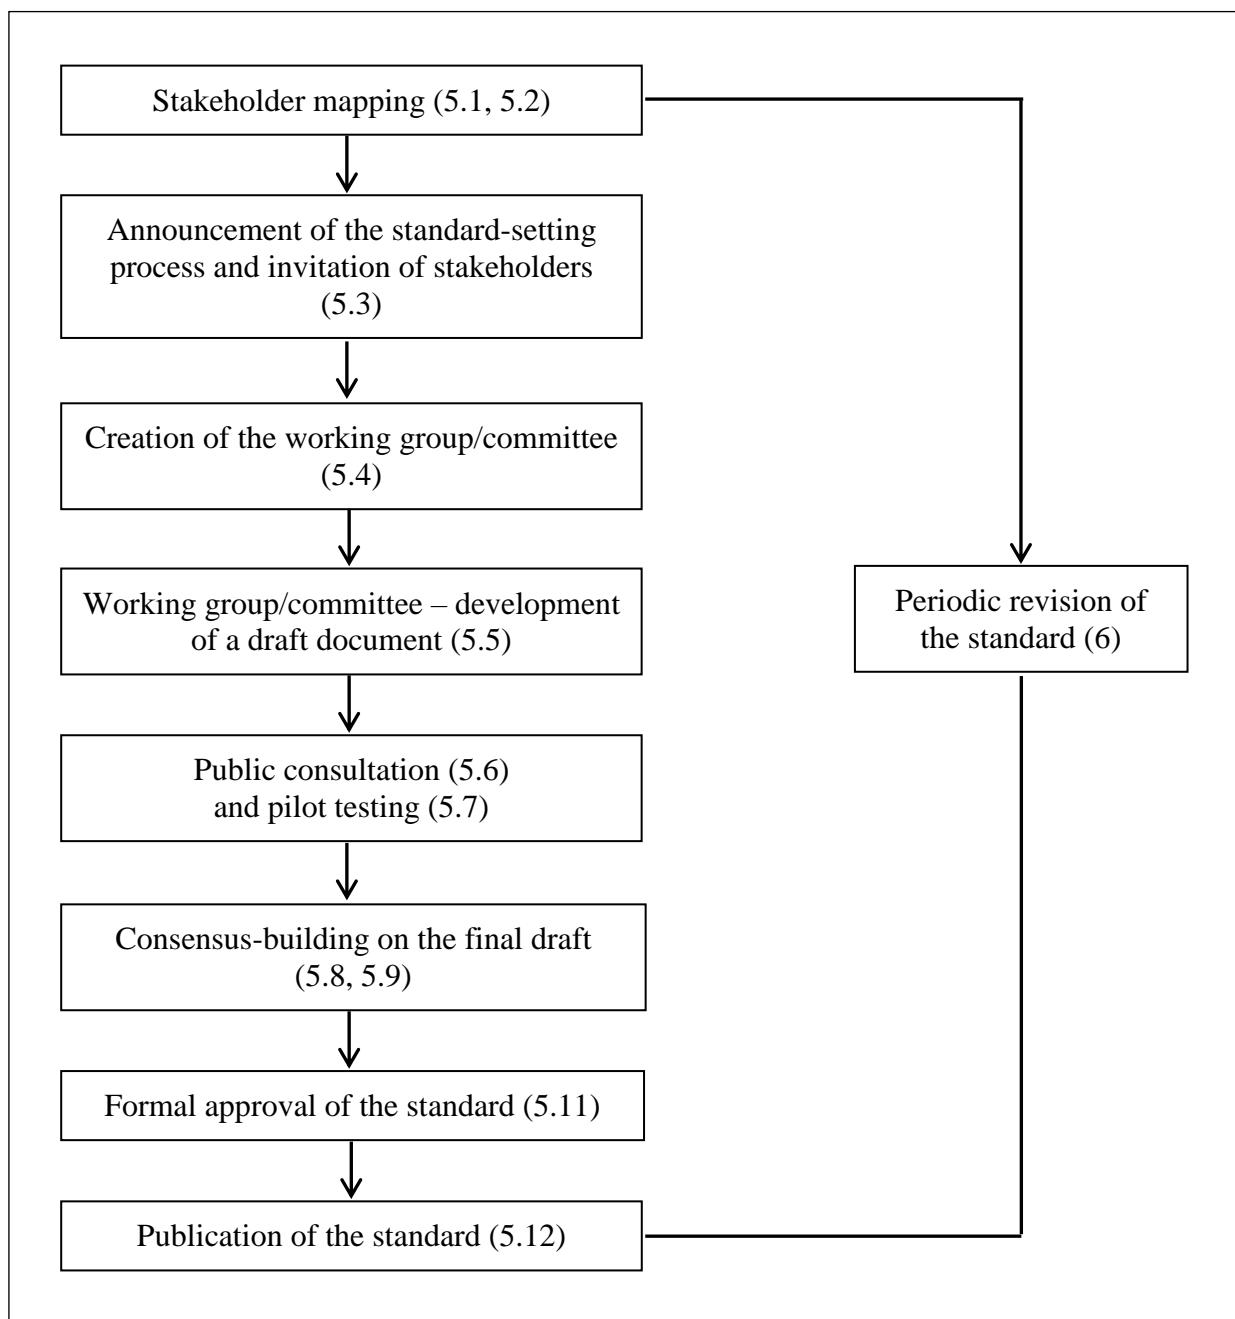

- (a) information about the objectives, scope and the steps of the standard-setting process and its timetable;
  - (b) information about opportunities for stakeholders to participate in the process;
  - (c) an invitation to stakeholders to nominate their representative(s) to the working group/committee. The invitation to disadvantaged and key stakeholders shall be made in a manner that ensures that the information reaches intended recipients and in a format that is understandable;
  - (d) an invitation to comment on the scope and the standard-setting process; and
  - (e) reference to publicly available standard-setting procedures.
- 5.4 The standardising body shall review the standard-setting process based on comments received from the public announcement and establish a working group/committee or adjust the composition of an already existing working group/committee based on received nominations. The acceptance and refusal of nominations shall be justifiable in relation to the requirements for balanced representation of the working group/committee and resources available for the standard-setting.
- 5.5 The work of the working group/committee shall be organised in an open and transparent manner where:
- (a) working drafts shall be available to all members of the working group/committee,
  - (b) all members of the working group/committee shall be provided with meaningful opportunities to contribute to the development or revision of the standard and submit comments to the working drafts, and
  - (c) comments and views submitted by any member of the working group/committee shall be considered in an open and transparent way and their resolution and proposed changes shall be recorded.
- 5.6 The standardising body shall organise a public consultation on the enquiry draft and shall ensure that:
- (a) the start and the end of the public consultation is announced in a timely manner in suitable media;
  - (b) the invitation of disadvantaged and key stakeholders shall be made by means that ensure that the information reaches its recipient and is understandable;
  - (c) the enquiry draft is publicly available and accessible;
  - (d) the public consultation is for at least 60 days;
  - (e) all comments received are considered by the working group/committee in an objective manner; and
  - (f) a synopsis of received comments compiled from material issues, including the results of their consideration, is publicly available, for example on a website.
- 5.7 The standardising body shall organise pilot testing of the new standards and the results of the pilot testing shall be considered by the working group/committee.
- Note: Pilot testing is not required in case of revision of a standard where experience from its usage can substitute for pilot testing.
- 5.8 The decision of the working group/committee to recommend the final draft for formal approval shall be taken on the basis of a consensus. In order to reach a consensus, the working group/committee can utilise the following alternative processes to establish whether there is opposition:

- (a) a face-to face meeting where there is a verbal yes/no vote, show of hands for a yes/no vote; a statement on consensus from the Chair where there are no dissenting voices or hands (votes); a formal balloting process, etc.,
  - (b) a telephone conference meeting where there is a verbal yes/no vote,
  - (c) an e-mail meeting where a request for agreement or objection is provided to members with the members providing a written response (a proxy for a vote), or
  - (d) combinations thereof.
- 5.9 In the case of a negative vote which represents sustained opposition to any important part of the concerned interests surrounding a substantive issue, the issue shall be resolved using the following mechanism(s):
- (a) discussion and negotiation on the disputed issue within the working group/committee in order to find a compromise;
  - (b) direct negotiation between the stakeholder(s) submitting the objection and stakeholders with different views on the disputed issue in order to find a compromise; and
  - (c) dispute resolution process (which shall be guided by the respective resolution procedures agreed by the working group/committee).
- 5.10 Documentation on the implementation of the standard-setting process shall be made publicly available.
- 5.11 The standardising body shall formally approve the standards and normative documents based on evidence of consensus reached by the working group/committee. The approval of the standards and normative documents shall gain the support of at least two-third (2/3) of the membership of the working group/committee. All standards and normative documents shall be approved by the Board of Trustees of MTCC.
- 5.12 The formally approved standards/normative documents shall be published in a timely manner and made publicly available.

## **6 REVISION OF STANDARDS/NORMATIVE DOCUMENTS**

- 6.1 The standards/normative documents shall be reviewed and revised at intervals that do not exceed a five-year period. The procedures for the revision of the standards/normative documents shall follow those set out in chapter 5.
- 6.2 The revision shall define the application date and transition date of the revised standards/normative documents.
- 6.3 The application date shall not exceed a period of one year from the publication of the standard.
- 6.4 The transition date shall not exceed a period of one year except in justified exceptional circumstances where the implementation of the revised standards/normative documents requires a longer period.

**Appendix A**

**List of Terms and Definitions extracted from PEFC ST 1001:2010 Standard Setting - Requirements**

**1. Consensus**

General agreement characterised by the absence of sustained opposition to substantial issues by any important part of the concerned interest and by a process that involves seeking to take into account the views of all parties concerned and to reconcile any conflicting arguments.

Note: Consensus need not imply unanimity (ISO/IEC Guide 2)

**2. Disadvantaged stakeholder**

A **stakeholder** who might be financially or otherwise disadvantaged in participating in the standard-setting work.

**3. Enquiry draft**

Proposed document that is available for public consultation.

**4. Final draft**

A proposed document that is available for formal approval.

**5. Key stakeholder**

A **stakeholder** whose participation is critical to the results of the standard-setting work.

**6. Normative document**

A document that provides rules, guidelines or characteristics for activities or their results.

Note 1: The term “normative document” is a generic term that covers such documents as standards, technical specifications, codes of practice and regulations.

Note 2: “A document” is to be understood as any medium with information recorded on or in it.

Note 3: The terms for different kinds of normative documents are defined considering the document and its content as a single entity (ISO/IEC Guide 2)

**7. Revision**

Introduction of all necessary changes to the substance and presentation of a normative document.

Note: The results of the revision are presented by issuing a new edition of the normative document (ISO/IEC Guide 2).

**8. Review**

Activity of checking a normative document to determine whether it is to be reaffirmed, changed or withdrawn.

**9. Stakeholder**

A person, group or organisation with an interest in the subject of the standardisation.

Note: The nine major groups that have been defined by Agenda 21 of the United Nations Conference on Environment and Development (UNCED) in Rio de Janeiro in 1992 provides an example of stakeholders involved in/concerned by sustainable forest management: (i) business and industry, (ii) children and youth, (iii) forest owners, (iv) indigenous people, (v) local authorities, (vi) NGOs, (vii) scientific and technological community, (viii) women, and (ix) workers and trade unions.

**10. Standard**

A document, established by consensus and approved by a recognised body that provides, for common and repeated use, rules, guidelines or characteristics for activities or their results, aimed at the achievement of the optimum degree of order in a given context.

Note: Standards should be based on the consolidated results of science, technology and experience, and aimed at the promotion of optimum benefits (ISO/IEC Guide 2).

**11. Standardising body**

Body that has recognised activities in standardisation (ISO Guide 2).

Note: A standardising body for a forest management scheme/standard is a body which is responsible for the development and maintenance of standards for the forest certification scheme. The standardising body can be a PEFC national governing body or the standardising body can be separate from the governance of the forest certification scheme.

**12. Working draft**

Proposed document that is available generally for comments or voting within a working group/committee.

**Stakeholder Categorisation**

MTCC conducted a stakeholder mapping exercise in August – September 2015 to review the existing categorisation of stakeholders based on their expertise and the interest they represent, as well as taking into consideration the views raised by the stakeholders during the MTCC Stakeholder Dialogue held on 28 July 2015.

As a result of the mapping exercise, the following key stakeholders/expert groups were identified:

- i. **Relevant Government Agency**
- ii. **Indigenous people** – simplified from ‘Social (indigenous peoples)’;
- iii. **Workers** – simplified from ‘Social (Workers’ Union)’
- iv. **Environment;**
- v. **Industry;** renamed from ‘Economic’ and
- vi. **Academic/research/professional bodies** (new category).

The detailed listing of stakeholders by interest/expertise groups are as shown in Table 1. This categorisation will form the basis for the selection of members to form the Standards Review Committee (SRC), the structure of which is as shown in Diagram 1.

---

**Kategorisasi Pihak Berkepentingan**

MTCC telah menjalankan aktiviti pemetaan pihak berkepentingan pada Ogos – September 2015 untuk mengkaji semula kategori yang sedia ada bagi pihak berkepentingan berdasarkan kepakaran dan kepentingan yang mereka wakili, dan juga mengambil kira pandangan yang dibangkitkan oleh pihak berkepentingan semasa Dialog Pihak Berkepentingan MTCC yang telah diadakan pada 28 Julai 2015.

Hasil daripada aktiviti pemetaan tersebut, pihak berkepentingan utama / kumpulan pakar berikut telah dikenal pasti:

- i. **Agensi-Agenzi Kerajaan Berkaitan**
- ii. **Orang Asal** – disingkatkan daripada ‘Sosial (Orang Asal)’;
- iii. **Perkerja** – disingkatkan daripada ‘Sosial (Kesatuan Pekerja)’
- iv. **Alam Sekitar;**
- v. **Industri;** dinamakan semula daripada ‘Ekonomi’ dan
- vi. **Akademik/penyelidik/badan ikhtisas** (kategori baru).

Senarai terperinci pihak berkepentingan menurut kepentingan kumpulan/kepakaran adalah seperti ditunjukkan dalam Jadual 1. Kategori-kategori ini akan menjadi asas bagi pemilihan ahli Jawatankuasa Semakan Semula Standard (SRC), mengikut struktur sepetimana yang ditunjukkan dalam Rajah 1.
