# Vision

To be recognised as the leading timber certification organisation for tropical forests

# Mission

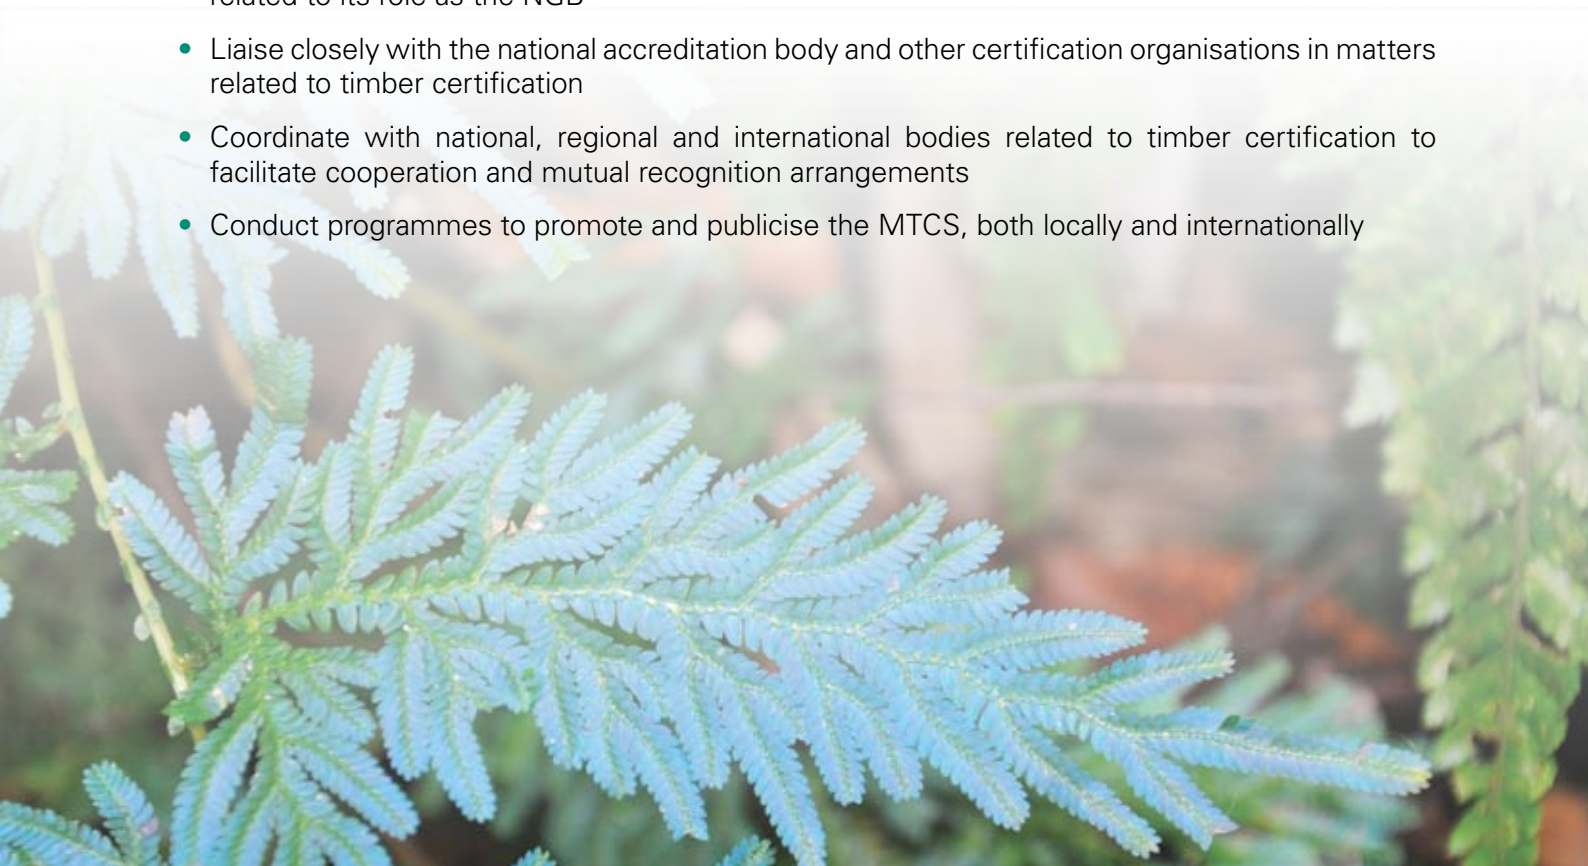

To establish and operate a credible and internationally recognised national timber certification scheme towards promoting sustainable forest management in Malaysia

# Corporate Profile

The Malaysian Timber Certification Council (MTCC) is an independent organisation established in October 1998 to develop and operate the voluntary Malaysian Timber Certification Scheme (MTCS). Incorporated under the Companies Act 1965 as a company limited by guarantee, MTCC is governed by a Board of Trustees and started its operation in January 1999.

MTCC's main activities are to:

- Be the national governing body (NGB) which has overall responsibility for the MTCS
- Support the standard-setting process by serving as the secretariat to the appropriate standard setting body in formulating standards related to timber certification and keeping them under review periodically
- Process applications for MTCS notification of Certification Bodies (CBs) operating forest management system and/or chain-of-custody certification and issuance of logo usage licences to Certificate Holders
- Implement a procedure for the investigation and resolution of disputes, complaints and appeals related to its role as the NGB
- Liaise closely with the national accreditation body and other certification organisations in matters related to timber certification
- Coordinate with national, regional and international bodies related to timber certification to facilitate cooperation and mutual recognition arrangements
- Conduct programmes to promote and publicise the MTCS, both locally and internationally

## BOARD OF TRUSTEES

The Board of Trustees, comprising the Chairman and ten other members, is the governing body which decides the overall policy and direction in carrying out MTCC's activities. In addition to the Chairman, the members comprise of two representatives each from academic and research institutions, the timber industry, social and environmental non-governmental organisations (NGOs) and government agencies.

The Board of Trustees in 2011 comprised:

### Chairman

Dato' Dr. Freezailah Che Yeom

### Trustees

• Datin Paduka Nurmala Abd. Rahim	Ministry of Plantation Industries and Commodities ( <i>up to 3 May</i> )
• M. Nagarajan	Ministry of Plantation Industries and Commodities ( <i>w.e.f. 3 May</i> )
• Zurinah Pawanteh	Ministry of Natural Resources and Environment
• Emeritus Prof. Dato' Dr. Abdul Latiff Mohamad	Universiti Kebangsaan Malaysia
• Dato' Dr. Abdul Latif Mohmod	Forest Research Institute Malaysia ( <i>up to 10 August</i> )
• Prof. Dr. Mohd Hamami Sahri	Universiti Putra Malaysia ( <i>w.e.f. 10 August</i> )
• Datuk James Hwong	Sabah Timber Industries Association
• Low Ching Cheong	Timber Exporters' Association of Malaysia ( <i>up to 10 August</i> )
• Ng Kay Yip	Malaysian Wood Industries Association ( <i>w.e.f. 10 August.</i> )
• Dr. Henry Chok	Sabah Environmental Protection Association
• Dr. Banabas Tapin	Kadazandusun Cultural Association
• Dr. Melvin Gumal	Wildlife Conservation Society, Malaysia Program
• Elbson Marajan Pengeran	Sarawak Dayak National Union
• Mohd. Khalid Atan	Timber Employees Union Peninsular Malaysia ( <i>w.e.f. 5 August</i> )

**Standing left to right** : Emeritus Prof. Dato' Dr. Abdul Latiff Mohamad, Mohd. Khalid Atan, Ng Kay Yip, Dr. Melvin Gumal, Elbson Marajan  
**Seated left to right** : M. Nagarajan, Dato' Dr. Freezailah Che Yeom, Datuk James Hwong  
**Absent from picture** : Zurinah Pawanteh, Dr. Banabas Tapin, Prof. Dr. Mohd Hamami Sahri

The Board of Trustees met three times in 2011 as follows:

Forty-Seventh Meeting – 13 June in Kuching

Forty-Eighth Meeting – 15 September in Kuala Lumpur

Forty-Ninth Meeting – 6 December in Kota Kinabalu

*Forty-Seventh Meeting*

*Forty-Eighth Meeting*

*Forty-Ninth Meeting*

## Investment Committee

The Investment Committee oversees the overall implementation of MTCC's investment policy, particularly in the management of the Endowment Fund. The Committee is also responsible for the formulation of policies and procedures on matters related to the establishment of the Fund.

The members of the Investment Committee in 2011 were:

Dato' Dr. Freezailah Che Yeom (Chairman)

Datin Paduka Nurmala Abd. Rahim - Ministry of Plantation Industries and Commodities

Mustafar Taib - Ministry of Finance

Chew Lye Teng - CEO

## ANNUAL GENERAL MEETING

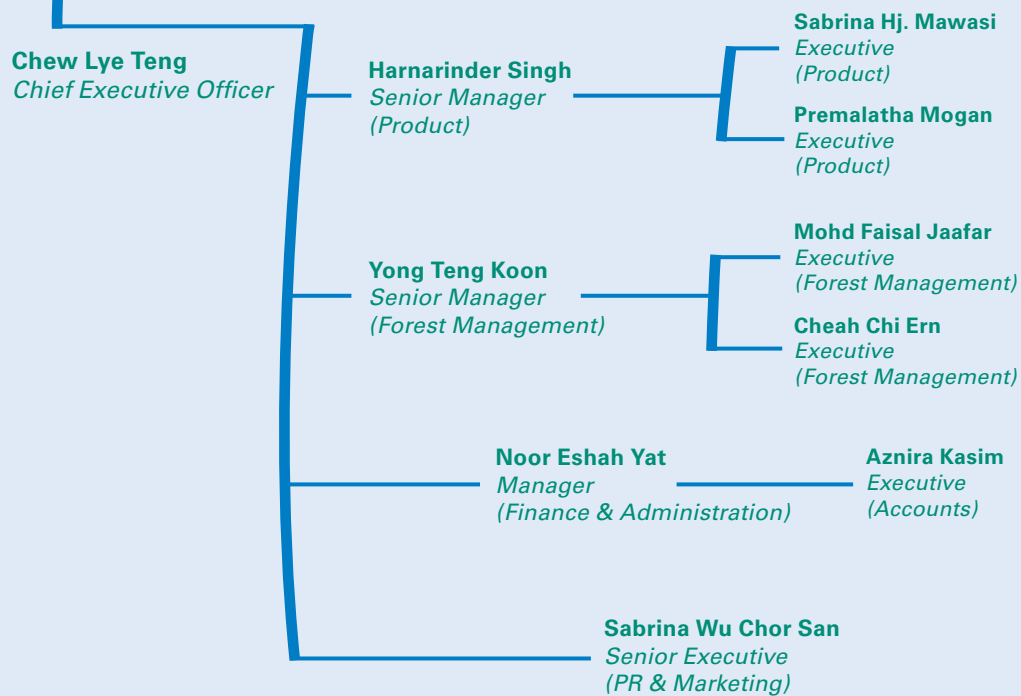

The Twelfth Annual General Meeting was held on 30 June during which the Audited Accounts for the financial year ended 31 December 2010, Reports of the Trustees and Auditors and the Annual Report for the year 2010, were tabled and adopted by the Members.

# ORGANISATION STRUCTURE

## CHAIRMAN & BOARD OF TRUSTEES

## Management Team and Supporting Staff

**Sitting left to right** : Yong Teng Koon, Chew Lye Teng, Harnarinder Singh, Noor Eshah Yat

**Standing left to right** : Rasyidah Abdul Rahman, Nur Ashykin Ab. Shukor, Sabrina Mawasi, Mohamad Fadzli Abd Ghani, Mohd. Faisal Jaafar, Cheah Chi Ern, Norashida Md. Zin, Sabrina Wu, Premalatha Mogan, Aznira Kasim

## Notification Committee

The Notification Committee which is responsible for the notification of CBs and the issuance of Logo Usage Licences, met eight times in 2011 as follows:

Thirty-First Meeting - 19 January	Thirty-Second Meeting - 8 March
Thirty-Third Meeting - 8 April	Thirty-Fourth Meeting - 19 May
Thirty-Fifth Meeting - 21 July	Thirty-Sixth Meeting - 9 September
Thirty-Seventh Meeting - 7 October	Thirty-Eighth Meeting - 2 December

The members of the Notification Committee in 2011 were:

Chew Lye Teng (Chairman)

Harnarinder Singh

Yong Teng Koon

## In-House Investment Committee

The In-House Investment Committee monitors the implementation of the decisions of the Investment Committee, as well as formulates investment recommendations for the consideration of the Investment Committee.

The members of the In-House Investment Committee in 2011 were:

Chew Lye Teng (Chairman)

Harnarinder Singh

Yong Teng Koon

Noor Eshah Yat (Secretary)

Company Secretary	Company Auditors
Zainal Abidin Pit (MAICSA 7014057) ZAP Management Services Sdn. Bhd. 15B, 2 <sup>nd</sup> Floor, Jalan Tengku Ampuan Zabedah F9/F 40100 Shah Alam, Selangor	Mazars (No. AF: 1954) Wisma Selangor Dredging 7 <sup>th</sup> Floor, South Block, 142-A, Jalan Ampang 50450 Kuala Lumpur

## CHAIRMAN'S STATEMENT

Soon after it commenced operational activities in 1986, the International Tropical Timber Organization (ITTO) commissioned a study to establish a baseline on the state of tropical forest management. The findings of the study were most alarming. Only about one million hectares of tropical forests could be described as being under sustainable management. There was then, no forest certification to determine with any certainty whether the one million hectares could be certified in accordance with current principles and standards. Such a finding shocked and galvanized the International Tropical Timber Council (ITTC) into action to assist producer member countries to implement sustainable forest management (SFM) through policy initiatives and project activities funded by the ITTO's small donor community.

Some 25 years later, on 7 June 2011, the ITTO released another report. There was improvement, but hardly encouraging. It was found that about 30.6 million hectares were under management, out of which only 17 million hectares were certified. Malaysia accounted for 5.0 million hectares, or about 35 per cent of its permanent reserved forests. Amongst ITTO's 33 producer member countries, Brazil, Gabon, Guyana, Malaysia and Peru were reported to be making notable progress. These statistics must be situated within and in the context of the forest area in ITTO's 33 producer member countries which totalled an estimated 1.42 billion hectares. Apparently, implementation of sustainable management and certification of tropical forest is most challenging in spite of the best efforts of tropical countries, the international community, the many organizations and all stakeholders with numerous initiatives.

In view of the foregoing, impatience by certain countries and parties is understandable, but the ill-conceived earlier idea of calling for a boycott of tropical timber to cure the ills of tropical forestry is no longer heard. Now there is a wave of green consumerism demanding sustainable or legal timber. And this move is spreading and gathering momentum into a tsunami! Many developed countries demand sustainable or legal timber for public procurement with elaborate procedures and in some cases, ever-stringent standards. The United States of America is now implementing the amended Lacey Act which compels timber importers to deal only with legal timber in compliance with the laws of the exporting countries. To this end, timber importers need to undertake due care to ensure the legality of imported timber in order to avoid penalties. With similar objectives of combating illegal logging and trade in illegal timber, the European Union (EU) has enacted its Timber Regulation. When it comes into force on 3 March 2013, all timbers imported into its member states will be subjected to due diligence to ensure their legality. However, exporting countries, which have concluded a Forest Law Enforcement Governance and Trade (FLEGT) Voluntary Partnership Agreement (VPA), may enter the EU markets through a 'green lane'. At the heart of the VPA is the Timber Legality Assurance System (TLAS), listing all the relevant legislation of the exporting country which must be complied with. Like forest certification, an independent third party monitor will verify compliance with relevant legislation in the forestry and timber sectors identified in the TLAS. Malaysia is negotiating with the EU to conclude a VPA, whilst a few countries in Africa, and Indonesia, have concluded negotiations and are in various stages of finalizing institutional arrangements and procedures to implement their respective VPAs and TLASs.

Malaysia's home-grown certification scheme, the Malaysian Timber Certification Scheme (MTCS) was endorsed by the PEFC in 2009 after almost a decade of hard work. Also, substantial progress has been made in negotiations with the EU to conclude the FLEGT VPA. Malaysia has therefore gained considerable first-hand experience on issues related to timber certification for sustainability and verification for legality. Both are most challenging needing strong institutions, knowledge and resources, both human and financial, all of which are in short supply in developing tropical countries. And the difficulties are further compounded by the complexity of the tropical forest ecosystem and social issues, in addition to markets which are often less than remunerative.

Undoubtedly, certification has contributed to sustainable forest management, which is both a difficult and long-term goal as indicated in the recently released ITTO report. Obviously, both are evolving processes with no instant solutions. The standard used in the MTCS, for example, needed to be reviewed and strengthened in order to reach

the level for endorsement by PEFC. Even now it is not free from demands for more stringency from certain countries. But then certification is voluntary unlike FLEGT VPA, which is legally binding, once concluded and signed. The VPA focuses on legality which may be considered as a milestone to sustainability. Its implementation can therefore significantly contribute to achieving the long-term goal of sustainability – a goal that we all share. The VPA is perhaps the most promising initiative to assist tropical countries towards such a goal by establishing a baseline through the TLAS which is legally binding. And from such a baseline further progress can be made. Also, unlike certain initiatives, timber exporting countries are fully consulted on the development of the TLAS in addition to financial and technical assistance for capacity building provided by the EU.

The small area of tropical forests certified to date must be indicative of the capacity of tropical countries to implement sustainable forest management and certification, irrespective of the scheme adopted. Will the EU FLEGT VPA, backed by the Timber Regulation, be more successful? If the requirements to be implemented are too cumbersome and stringent, it will have dire unintended consequences. Equally, requirements which are too 'soft' will not achieve the objective of delivering legal timber. Clearly, a judicious compromise will need to be struck between the realities on the ground and hence the capacity of tropical countries on the one hand, and the need for a credible system to ensure timber legality. Such a compromise, between what we wish to do and what we can do, will establish a baseline – legally binding on tropical countries – which can be strengthened from time to time based on experience, use of modern methods and technologies and most importantly, a positive market response. In such a complex situation, prudence will dictate that we aim for progress incrementally. If the requirements are so cumbersome and stringent, and beyond the capacity of tropical countries to deliver, the future of the tropical timber trade with the EU looks bleak. Let us pause and reflect on these issues to ensure the success of the FLEGT VPA which we must all agree has the potential to contribute to better tropical forestry.

Many have rightly pointed out that tropical forests are in crisis. In presenting MTCC's annual report for 2011, I offer some personal thoughts on the way to make progress in which the EU FLEGT VPA offers a ray of hope if we all can work together cooperatively and with greater understanding on the problems of tropical forestry.

**DATO' DR. FREEZAILAH CHE YEOM**

Chairman

19 June 2012

The beginning of 2011 saw the Kelantan FMU successfully making the transition to be awarded a PEFC certificate. Therefore by February, all the nine existing holders of the *Certificate for Forest Management*, as well as 177 holders of the *Certificate for Chain of Custody* under the MTCS had been awarded the PEFC certificate which qualified them to use the PEFC logo, upon signing the logo usage licence agreement with MTCC. Following this development, the shipment of PEFC-certified timber products increased nearly ten times from 2,510 cubic metres in 2010 to 23,052 cubic metres in 2011.

In line with the decision by PEFC International to use the revised international chain of custody standard, PEFC ST 2002:2010, with effect from 26 November, the process of auditing the holders of the *Certificate for Chain of Custody* to assess compliance with the new standard has started.

Exports of timber products certified under the MTCS showed a slight increase from 72,267 cubic metres in 2010 to 73,670 cubic metres in 2011. The Netherlands

remained as the largest market for timber products certified under the MTCS, accounting for 56% of the total exports. With the export performance in 2011, the total cumulative volume of certified timber products exported under the MTCS reached 512,751 cubic metres.

The process to review the *Malaysian Criteria and Indicators for Forest Management Certification* [MC&I(2002)] was successfully concluded in September with the finalisation and adoption of the revised standard by the Standards Review Committee (SRC). The revised standard is now renamed the *Malaysian Criteria and Indicators for Forest Management Certification (Natural Forest)* or MC&I(Natural Forest). The review process thus took 29 months (from April 2009 to September 2011) involving three meetings of the SRC, three meetings of the Panel of Experts, three public comment periods and regional-level stakeholder consultations in Sabah, Sarawak and Peninsular Malaysia. MTCC is indeed grateful to all the stakeholder groups for their inputs in the form of comments and proposals during the various stages of the review process.

MTCC's activities in capacity building were continued, with the organisation of an auditor training course on the PEFC ST 2002:2010 conducted by PEFC International, which was followed by briefing sessions by MTCC on the same standard to certificate holders in Sabah, Sarawak and Peninsular Malaysia. Briefing sessions were also conducted for representatives of certified FMUs on the new documents related to the MC&I(2002) which were issued by MTCC in connection with the assessment of the MTCS by the Timber Procurement Assessment Committee (TPAC) in The Netherlands. In addition, briefing sessions on the MC&I(Forest Plantations) were conducted for interested managers of forest plantations.

Activities to promote and widely publicise the MTCS as a PEFC-endorsed scheme were continued through participation and/or dissemination of publicity brochures in missions, business visits, seminars, trade fairs and exhibitions, through the MTCC Newsletter as well as through one-to-one discussions with key contacts by the MTCC or its public relations representatives.

With regard to the assessment of the MTCS by the TPAC, the public hearing convened by the SMK Board of Appeal on the appeal lodged by MTCC against the TPAC's Revised Final Judgement took place in August. MTCC however suffered a further set back when the Board of Appeal announced its decision in November to dismiss the appeal, thus ignoring the steps that have been taken by MTCC to address the non-compliances identified by the TPAC.

During the course of the year, MTCC continued to contribute to other initiatives and activities which have linkage, either directly or indirectly, to its core responsibility of operating the MTCS. In this connection, MTCC spearheaded a project to formulate guidelines and procedures for social impact assessment (SIA) and monitoring of forest management operations. MTCC also participated in several projects and activities, i.e. (i) a pilot study on group certification of rubber small holdings under the MTCS, (ii) capacity building of companies for compliance with requirements for certification under the MTCS, (iii) on conservation of biodiversity through improved forest planning tools and (iv) the Malaysian Forest Dialogue which dealt with the development of a code of conduct for the timber industry. Another important contribution by MTCC is its participation in the discussions and stakeholder consultations related to the on-going negotiations between Malaysia and the EU on the FLEGT VPA.

MTCC is grateful for the continued cooperation and support from the forest managers, timber companies, certification bodies, accreditation body, the forestry and timber-related agencies and representatives of the environmental, social and economic stakeholder groups in Sabah, Sarawak and Peninsular Malaysia towards its activities and initiatives in 2011, in particular the review the MC&I(2002). MTCC looks forward to continue working with all parties concerned to achieve the common objective of the sustainable management of our forest resources.

I am grateful to the Chairman and Board of Trustees, as well as the Members of MTCC, for their continued guidance and support. I would also like to thank all the MTCC staff for the diligence and effort that they have shown in carrying out their duties and responsibilities.

**CHEW LYE TENG**

Chief Executive Officer

19 June 2012

# OPERATIONS

## Forest Management Certification

Kelantan Forest Management Unit (FMU) was awarded with the PEFC accredited *Certificate for Forest Management* on 9 February, bringing the total number of PEFC-certified FMUs to nine in 2011.

Details on the date of issuance of certificate, the CB involved, and the dates of the surveillance audits for the nine certified FMUs carried out in 2011 are as shown in **Table 1**.

**Table 1: Details on Issuance of Certificate and Surveillance Audit**

Name of FMU	Certification Body	Date of Issuance of Certificate	Date of Surveillance Audit 01	Date of Surveillance Audit 02
Segaliud Lokan, Sabah	SIRIM QAS International Sdn. Bhd.	3 December 2009	27-30 September 2010	19-21 July 2011
Negeri Sembilan	SIRIM QAS International Sdn. Bhd.	29 December 2009	21-23 July 2010	12-14 July 2011
Johor	SGS (Malaysia) Sdn. Bhd.	1 April 2010	27-30 July 2010	20-23 June 2011
Terengganu	SGS (Malaysia) Sdn. Bhd.	1 April 2010	23-26 August 2010	4-7 July 2011
Kedah	SIRIM QAS International Sdn. Bhd.	9 June 2010	1-4 November 2010	14-18 November 2011
Pahang	SGS (Malaysia) Sdn. Bhd.	5 July 2010	4-8 October 2010	1-4 November 2011
Perak	SIRIM QAS International Sdn. Bhd.	7 July 2010	8-12 November 2010	21-24 November 2011
Selangor	SGS (Malaysia) Sdn. Bhd.	1 September 2010	25-27 October 2010	15-17 November 2011
Kelantan	SIRIM QAS International Sdn. Bhd.	9 February 2011	20-23 June 2011	-

In terms of the extent of area certified, the nine FMUs cover a total of 4,646,068 hectares of Permanent Reserved Forests (PRFs) in Malaysia as shown in **Table 2**.

**Table 2: PEFC-Certified FMUs**

No.	Name of FMU	Certificate Number	Area (ha)
1	Segaliud Lokan, Sabah	FMC 001	57,247
2	Negeri Sembilan	FMC 002	154,185
3	Johor	SGS-MTCS/FM0102	397,392
4	Terengganu	SGS-MTCS/FM0103	521,582
5	Kedah	FMC 003	307,046
6	Pahang	SGS-MTCS/FM0104	1,562,496
7	Perak	FMC 004	991,436
8	Selangor	SGS-MTCS/FM0105	230,187
9	Kelantan	FMC 008	424,497
<b>Total Area Certified:</b>			<b>4,646,068</b>

## Issuance of Two New Documents

In connection with the Revised Final Judgement on the MTCS by the Timber Procurement Assessment Committee (TPAC) of The Netherlands, MTCC issued two new documents on specific aspects of the *MC&I(2002)* to the MTCS-notified CBs on 16 February as follows:

- (i) A normative document ***MC&I 2/2011 – Interpretation of Criterion 6.10 of the MC&I(2002)*** to provide a clearer interpretation of Criterion 6.10 to address the concern that the allowable threshold for conversion of PRFs to forest plantations and non-forest land uses entailing “a very limited portion of the FMU” is not being quantified. This normative document supersedes the earlier document MC&I 2/2010 dated 7 April 2010.
- (ii) A guidance document ***MC&I 3/2011 – Interpretation of the Term ‘Free and Informed Consent’ in the MC&I(2002)*** to provide clearer guidance on the interpretation of the term “*free and informed consent*” which is specified in several Criteria and Indicators.

Subsequent to the issuance of the two documents, MTCC conducted four briefing sessions from April to May to inform the certified FMUs in Peninsular Malaysia with regard to the requirements of these two documents.

*Participants being briefed on the requirements of the MC&I(2002) including the two new documents and participation in field trip*

## Chain of Custody Certification

In 2011, 24 companies were awarded the PEFC *Certificate for Chain of Custody* by the five PEFC-notified CBs under the MTCS.

Of this total, 10 certificates were issued by SGS (Malaysia) Sdn. Bhd., eight by SIRIM QAS International Sdn. Bhd., four by SGS South Africa Pty Ltd., and one certificate each by Moody International Certification (Malaysia) Sdn. Bhd. and Scientific Certification Systems.

With the issuance of the new certificates and the withdrawal of the certificates issued to seven companies, the number of PEFC certificate holders increased to 177 by the end of 2011. The full list of the holders of the *Certificate for Chain of Custody* issued by PEFC-notified CBs is as shown in **Appendix I**.

## Use of Revised PEFC CoC Standard

At the 14<sup>th</sup> PEFC General Assembly that was held on 12 November 2010 in Rio de Janeiro, Brazil, a number of changes to the PEFC Council documentation were adopted. The changes made are a result of the process undertaken by various Technical Working Groups (TWGs) since 2009 to revise and streamline the documentation with international requirements and specifications.

The General Assembly had adopted the revised chain of custody standard entitled *PEFC ST 2002:2010 Chain of Custody of Forest Based Products–Requirements*.

The revised standard replaces *Annex 4: Chain of Custody of Forest Based Products-Requirements* of the Technical Document which has been used as the chain of custody standard under the MTCS since 2008. Chain of custody certificate holders were informed that *Annex 4* will be withdrawn on 26 November, after a one-year transition period.

The General Assembly had also adopted the second edition of the *PEFC Logo Usage Rules* (PEFC ST 2001:2008 v2). The document reflects the changes to the label claim text, as well as the treatment of recycled material, for labeling purposes. PEFC ST 2001:2008 v2 is applicable only to the PEFC Logo usage licence holders that have been certified against the PEFC ST 2002:2010.

In order to provide a better understanding of the PEFC ST 2002:2010 and changes made in comparison to the Annex 4 document as well as their implications, MTCC conducted a series of briefing sessions in 2011. In Peninsular Malaysia, the briefing sessions were held on 6 October in Ipoh, 10 October in Kuantan and 20 October in Kuala Lumpur. In Sabah and Sarawak, the briefing sessions were held in Bintulu and Kota Kinabalu on 8 and 9 November, respectively. The briefing sessions were attended by a total of 180 representatives of holders of the *Certificate for Chain of Custody* under the MTCS.

### Issuance of MTCC Logo Usage Licence

Seven applications for the MTCC Logo Usage Licence were approved by the Notification Committee in 2011. The seven companies are:

- B.K.B. Hevea Sdn. Bhd.
- Kilang Papan Salamah Sdn. Bhd.
- Evershine Timber Trading Sdn. Bhd.
- Hexa Viana Sdn. Bhd.
- Sim Seng Huat Timber Industries Sdn. Bhd.
- D & R Lumber Sdn. Bhd.
- Rosewood Corporation Sdn. Bhd.

The full list of the MTCC Logo Usage Licences issued by MTCC is as shown in **Appendix II**.

### Issuance of PEFC Logo Usage Licence

The issuance fee and the annual fee that was approved by the Board of Trustees at its 43<sup>rd</sup> meeting on 6 April 2010 remain unchanged for the July 2011-June 2012 period as shown in **Table 3**.

**Table 3: Logo Usage Fee Schedule**

Logo User Category	Subsets	Issuance Fee (RM)	Annual Fee (RM)
A. MTCC		-	-
B. Forest Management Certificate	Natural Forest and Forest Plantations	50.00	RM0.018 per ha of certified forest
C. CoC Certificate	Based on annual total turnover (RM):		
	Up to 5 Million	50.00	300.00
	Over 5 Million and up to 20 Million	50.00	500.00
	Over 20 Million and up to 50 Million	50.00	750.00
	Over 50 Million and up to 100 Million	50.00	1,000.00
	Over 100 Million	50.00	2,000.00
D. Other users	PEFC-notified CBs	50.00	500.00
	Other users	-	-

A total of 36 PEFC Logo Usage Licences were approved and issued. Of the new licences issued, one licence was issued to a Forest Management Certificate holder, while the balance were to CoC certificate holders.

The full list of the PEFC Logo Usage Licences issued by MTCC is as shown in **Appendix III**.

## Certification Bodies

There was no change to the number of PEFC-notified CBs operating forest management and CoC certification under the MTCS as shown in **Table 4**.

**Table 4: PEFC-notified certification bodies**

Type Of Certification	PEFC-notified CB	Notification Date
Forest Management Certification	SIRIM QAS International Sdn. Bhd.	10 December 2009
	SGS (Malaysia) Sdn. Bhd.	24 December 2009
Chain of Custody Certification	SIRIM QAS International Sdn. Bhd.	2 September 2009
	Japan Gas Appliances Inspection Association	2 October 2009
	SGS South Africa Pty Ltd - Qualifor Programme	2 October 2009
	SGS (Malaysia) Sdn. Bhd.	24 December 2009
	Moody International Certification (M) Sdn. Bhd.	20 August 2010
	Scientific Certification Systems	20 August 2010

## EXPORT OF TIMBER PRODUCTS CERTIFIED UNDER MTCS

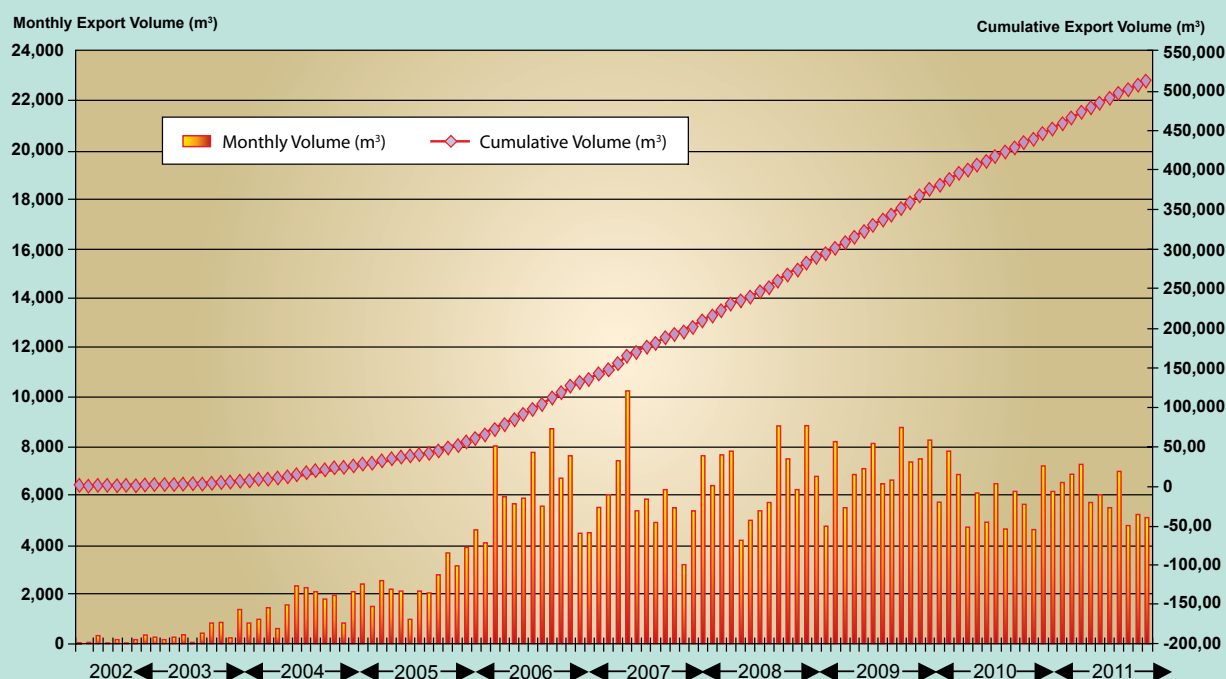

The export of timber products certified under the MTCS in 2011 showed a slight increase, going up by 2% from 72,267 m<sup>3</sup> in 2010 to 73,670 m<sup>3</sup> in 2011. The United Arab Emirates (UAE) became the latest destination, adding to the existing list of 22 countries comprising The Netherlands, Belgium, Germany, UK, France, Australia, Greece, Denmark, Poland, Italy, Norway, Indonesia, South Africa, South Korea, USA, Japan, Mauritius, New Zealand, Albania, Ireland, Singapore and the Philippines.

Out of the total 73,670 m<sup>3</sup> exported in 2011, 56% or 41,935 m<sup>3</sup> reached The Netherlands, which continued to be the largest market for the certified products. The highest volume of 7,288 m<sup>3</sup> was exported in the month of May.

Hence, by the end of 2011, a total cumulative volume of 512,751 m<sup>3</sup> timber products certified under the MTCS had been exported, with The Netherlands as the largest market importing 261,758 m<sup>3</sup> (or 51%) of the total quantity exported since July 2002. The range of certified timber products includes sawn timber, plywood, mouldings, veneer, laminated finger-jointed timber, finger-jointed dressed timber (S4S), furniture and furniture components, door and window components, picture frames and parquet flooring.

**Figure 1** shows the export of timber products certified under the MTCS by month as well as the cumulative volume since July 2002. **Figures 2** and **3** provide the percentage breakdown of the certified products exported in 2011 by product type and destination, respectively.

Figure 1: Export of Timber Products Certified Under the MTCS, July 2002 – December 2011

Source: MTIB & MTCC

Figure 2: Export of Timber Products Certified Under the MTCS by Product Type, 2011

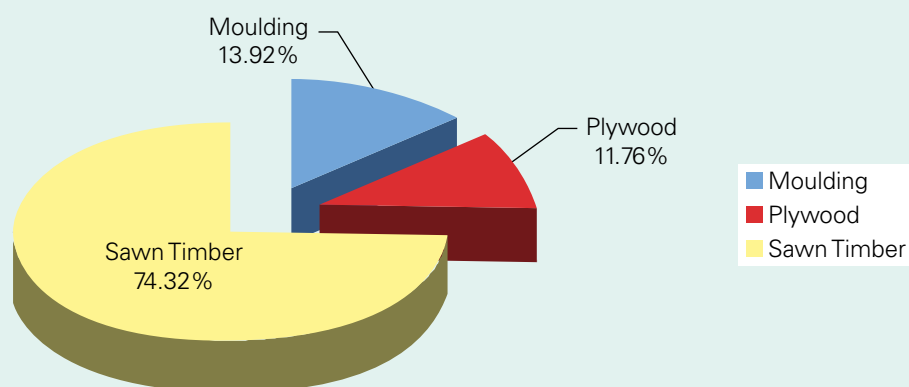

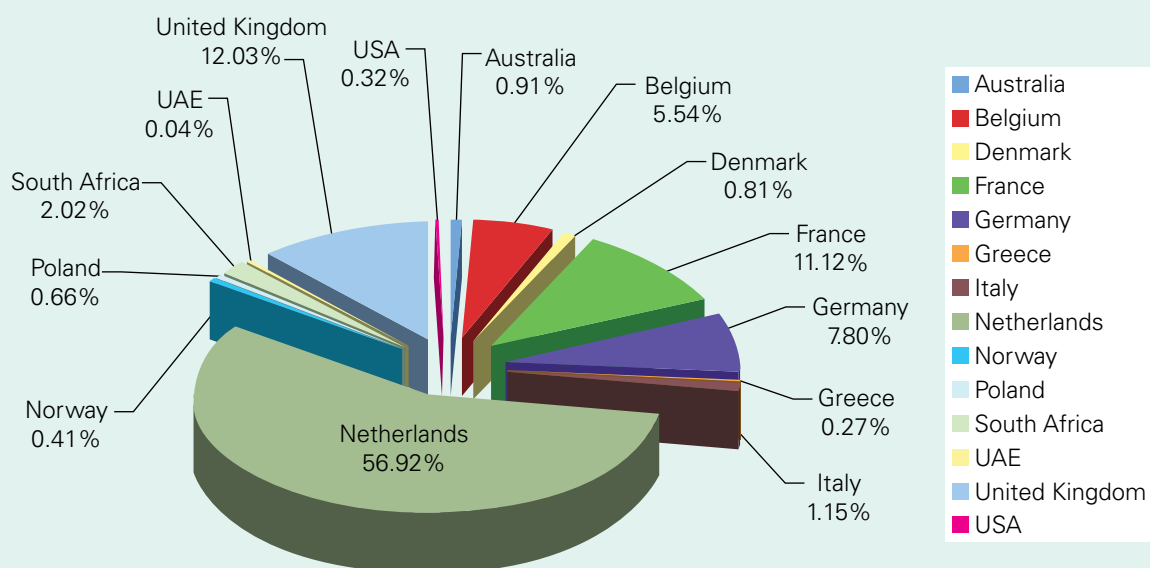

Total Volume: 73,670m<sup>3</sup>

Figure 3: Export of Timber Products Certified Under the MTCS by Destination, 2011

Total Volume: 73,670m<sup>3</sup>

## PEFC-Certified Timber Products

The export of PEFC-certified timber products that started in September 2010 continued to increase, with a total of 23,052 m<sup>3</sup> exported in the year 2011. Six new destinations (Australia, Denmark, France, Germany, Japan and New Zealand) joined Belgium, Italy, The Netherlands, Norway, UK and USA as the countries importing such timber.

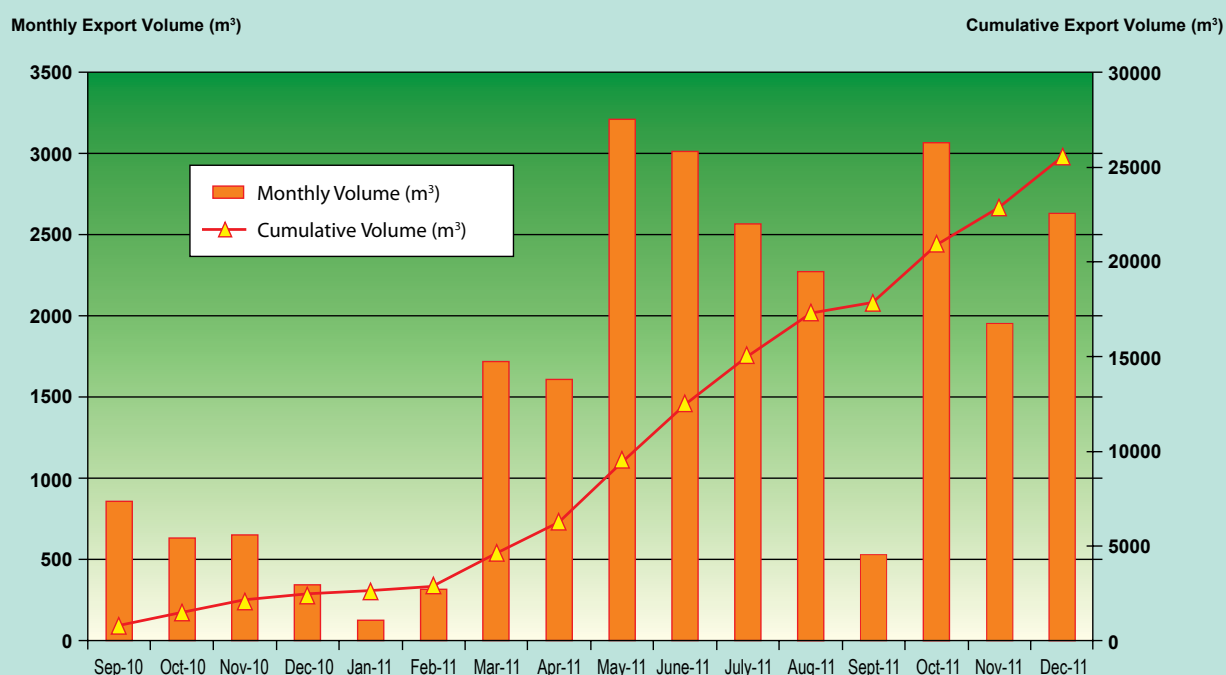

The highest volume of PEFC-certified products exported was recorded in the month of May, totalling 3,209 m<sup>3</sup>. Of the total, 45.6% or 10,519 m<sup>3</sup> reached The Netherlands, again making it the largest market for PEFC-certified products from Malaysia.

Hence, by the end of 2011, a total cumulative volume of 25,562 m<sup>3</sup> of PEFC-certified products had been exported, with The Netherlands importing 12,002 m<sup>3</sup> (or 47%). The range of certified products exported comprise sawn timber, plywood, mouldings, laminated scantling, and woodchips, with plywood making up the highest volume (19,805 m<sup>3</sup>) or 77.5% of the total exports.

**Figure 4** shows the export of PEFC-certified timber products by month as well as the cumulative volume since September 2010. **Figures 5** and **6** provide the percentage breakdown of the PEFC-certified products exported in 2011 by product type and by destination, respectively.

**Figure 4: Export of PEFC-Certified Timber Products from September 2010 – December 2011**

# CERTIFICATION STANDARDS

## Review of *Malaysian Criteria and Indicators for Forest Management Certification [MC&I(2002)]*

*Second Meeting of SRC*

*Third Meeting of SRC*

Following the incorporation of comments received from the three Regional Consultations held in Sabah, Sarawak and Peninsular Malaysia, the Second Draft of the MC&I(Natural Forest) was reviewed by the Panel of Experts (PoE) on 27-28 January.

Subsequently, the *Third Draft of the MC&I(Natural Forest)* including the views of the PoE was considered by the Second Meeting of the Standards Review Committee (SRC) held on 16-18 March in Miri, resulting in the *Final Draft of the MC&I(Natural Forest)*.

The *Final Draft* was subjected to a Third (final) Public Comment period from 14 May – 12 July, resulting in further comments and proposals being received from the following stakeholder groups:-

- Wildlife Conservation Society (Malaysia Program)
- Natural Resources and Environment Board, Sarawak
- Sabah Forestry Department
- Forestry Department Peninsular Malaysia
- Kadazandusun Cultural Association, Sabah
- Forest Research Institute Malaysia
- Sarawak Forest Department
- Bioversity International
- Johor National Parks Corporation
- Environmental Protection Department, Sabah
- Persatuan Kedayan Sabah
- Sarawak Biodiversity Centre
- Department of Labour, Sarawak
- Department of Irrigation and Drainage, Sabah
- Human Rights Commission of Malaysia (SUHAKAM)

*Third Meeting of the POE*

MTCC also provided comments and proposals on the *Final Draft*.

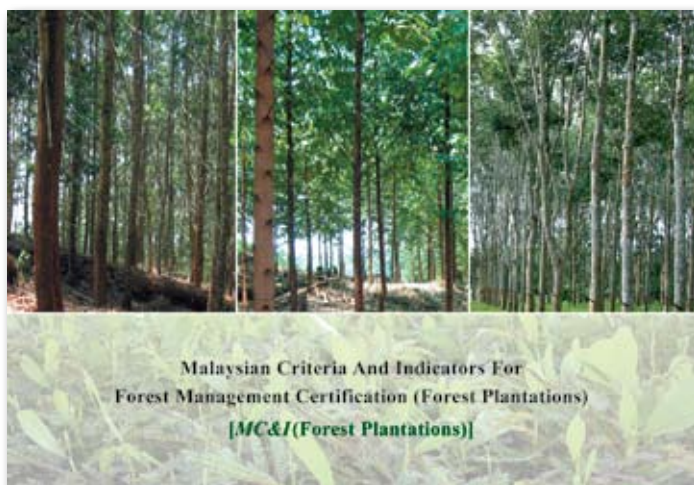

The *Final Draft* incorporating the comments received from the Third Public Comment period was considered by the Third Meeting of the SRC held on 20-22 September in Langkawi. The SRC finalised and adopted the *MC&I*(Natural Forest), which would replace the *MC&I*(2002) as the standard for forest management certification.

Overall, the review of the *MC&I*(2002) had been conducted in an inclusive, participatory and transparent manner, with the various drafts of the *MC&I*(Natural Forest) being subjected to extensive consultations through three Public Comment periods and Regional Consultations, as well as review by the PoE and deliberation and consideration by the SRC, which met three times each in the course of the review process.

## Update on the Endorsement of *MC&I*(Forest Plantations) by the PEFC Council

In January 2010, MTCC submitted the *MC&I*(Forest Plantations) for endorsement by the PEFC Council to extend the scope of the PEFC-endorsed MTCS to cover forest plantations. Following an assessment against the *ITTO Guideline for the establishment and management of planted forests (1993)* and relevant sections of *ITTO/IUCN Guidelines for the conservation and sustainable use of biodiversity in tropical timber production forests*, the PEFC appointed consultant, Indufor Oy recommended to the PEFC Council in December 2010 the endorsement of the *MC&I*(Forest Plantations) under certain conditions.

However, the PEFC Board of Directors which met on 4 February decided not to recommend the endorsement of the *MC&I*(Forest Plantations) to the PEFC Council General Assembly until MTCC submits evidence demonstrating compliance with Principle 12 and 13 of the *ITTO Guidelines for the establishment and management of planted forests*.

In view of the fact that PEFC has adopted a new PEFC standard, i.e. *PEFC ST 1003:2010: Sustainable Forest Management - Requirements* which shall be used to assess all national forest management certification standard with an application date of May 2011 and transition date of May 2013, MTCC decided to subject the *MC&I*(Forest Plantations) to a new assessment by PEFC based on the requirements of the new PEFC standard. Subsequently, MTCC resubmitted the *MC&I*(Forest Plantations) to the PEFC Council on 20 July for assessment against the requirements of *PEFC ST 1003:2010*. Indufor Oy was again appointed as the consultant to undertake the assessment.

Indufor Oy in its Final Report dated 5 September has recommended the endorsement of the *MC&I*(Forest Plantations) as part of the PEFC-endorsed MTCS, with condition that the PEFC Council takes a stand on how its policies on conversion are interpreted in the recently converted sites, i.e. between the period that the *MC&I*(Forest Plantations) was adopted under the MTCS in November 2008 and January 2010, which is the cut-off date for the conversion of forest areas regarded as high conservation value forest (HCVF).

By end of 2011, the PEFC Board has yet to make a decision on the endorsement of the *MC&I*(Forest Plantations).

### Training Course on *PEFC ST 2002: 2010 - Chain of Custody of Forest Based Products – Requirements*

*Christian Kammer conducting training course on revised PEFC chain of custody standard*

A training course on the revised PEFC International chain of custody standard, the *PEFC ST 2002:2010*, was held for auditors on 3 October in Kuala Lumpur. The main aim of the course was to brief the auditors with regard to the scope and requirements of the *PEFC ST 2002:2010*.

The training course is also aimed at increasing the number of auditors who have a good understanding of the revised standard, to fulfil the requirement for eligibility to undertake audits under the MTCS.

The course was attended by a total of 27 auditors representing PEFC-notified CBs [SGS (Malaysia) Sdn. Bhd., SIRIM QAS International Sdn. Bhd. and Moody International Sdn. Bhd.] as well as from other organisations [Saytech General Inspection Services Sdn. Bhd. and Forest Research Institute Malaysia (FRIM)]. Officers from the national accreditation body, STANDARDS MALAYSIA, also attended the course. The course was conducted by Christian Kammer, Technical Officer from the PEFC Council, Geneva.

## Economic Mission to Australia

The *Economic Mission to Australia* led by the Minister of Plantation Industries and Commodities, Tan Sri Bernard G. Dompok, involved three main commodities (palm oil, timber and rubber) and was held from 24 July to 2 August with the following objectives:

For the timber industry, the main objectives of the Working Visit were:

- (i) to discuss and exchange views with senior government officials and the media regarding issues pertaining to palm oil, timber and rubber industries and trade between Malaysia and Australia;
- (ii) to deliver the keynote address and officiate the *Seminar on the Malaysian Timber Industry* held in Melbourne and Sydney;
- (iii) to discuss and voice Malaysia's views and concerns regarding the proposed *Food Standards Amendment (Truth in Labelling – Palm Oil) Bill 2011*, and the draft *Illegal Logging Prohibition Bill 2011*; and
- (iv) to further strengthen the export trade of palm oil, timber and rubber products to Australia.

The 26 participants in the Mission comprised representatives of the Ministry of Plantation Industries and Commodities (MPIC), MTCC, Malaysian Palm Oil Board (MPOB), Malaysian Palm Oil Council (MPOC), Malaysian Timber Industry Board (MTIB), Malaysian Timber Council (MTC), Malaysian Furniture Promotion Council (MFPC), Malaysian Rubber Board, Malaysian Rubber Export Promotion Council (MREPC), Sarawak Forest Department (SFD) and National Association of Smallholders (NASH), as well as two Members of Parliament. MTCC was represented by the Senior Manager (Product), Harnarinder Singh.

During the Mission, Tan Sri Dompok held a number of bilateral meetings with his Ministerial counterparts in Melbourne, Sydney and Canberra, participated in visits and media interviews, and officiated the *Seminar on the Malaysian Timber Industry*.

In Sydney, the Minister and delegation also had discussions with the *Training and Further Education* (TAFE) of New South Wales, one of the largest training institutes in Australia, and the *Australian Trade Commission* (AUSTRADE), the agency responsible for promoting the export of Australian products to the international market. In Canberra, discussions were held with the *Australian Food and Grocery Council* (AFGC) where the Minister explained Malaysia's stand with regard to sustainable development of the palm oil industry.

The Minister also led the *Palm Oil Industry Dialogue* held on 29 July in Sydney which was attended by 19 representatives from importers and users of palm oil and its derivatives. The Dialogue was held to discuss and convey Malaysia's concerns on the proposed labelling of palm oil in food products sold in Australia, and provide clarification on the sustainable development of the palm oil industry in Malaysia.

The Minister and his delegation also visited Canterbury Window and Door Manufacturers in Springvale, Melbourne, one of the largest manufacturer of wooden doors and windows that uses Malaysian timber; Holmesglen Institute, Chadstone Campus (Furnishing Industry Training Centre) in Melbourne, a vocational training institute that provides training to the workforce in the construction industry; and Bunnings DIY Centre in Mascot, Sydney that retails in construction and furnishing materials, including timber products and wooden furniture from Malaysia.

*Bilateral meeting between Tan Sri Dompok (left) and Senator Joe Ludwig, Minister for Agriculture, Fisheries and Forestry, Australia (right)*

*Panel discussion during Seminar on the Malaysian Timber Industry in Melbourne*

During the Mission, much of the dialogue and discussions were focused on Malaysia's views and concerns regarding the proposed *Food Standards Amendment (Truth in Labelling – Palm Oil) Bill*, and the draft *Illegal Logging Prohibition Bill 2011*.

The purpose of the *Illegal Logging Prohibition Bill 2011* is for an Act to combat illegal logging, and to reduce the harmful environmental, social and economic impacts of illegal logging by prohibiting the importation and sale of illegally logged timber products in Australia. The Bill will require Australian timber importers to show proof that the timber and timber products imported into Australia have been sourced from legal sources, and is similar to the EU Timber Regulation that will only allow the importation of legal timber into the EU.

In his bilateral meetings, Tan Sri Dompok informed that Malaysia has no objection to the implementation of this Bill, as long as it is non discriminatory and is applied to all types of timber products, and is not specifically for tropical timber products. He pointed out that Malaysia has developed and implemented a credible timber certification scheme, the MTCS, which has been accorded international recognition with the endorsement by the PEFC Council and is also in the final stages in developing the Voluntary Partnership Agreement (VPA) with the EU under the FLEGT process.

The Minister officiated two seminars on the Malaysian timber industry in Melbourne on 26 July and in Sydney on 28 July, as part of the MTC's *Business Visit to Australia* aimed at promoting the Malaysian timber trade and multi-use of timber species, updating on the forestry and sustainable forest management (SFM) practices in Malaysia, fostering close working relationship with the public and private sectors, and assuring Australian consumers and buyers that Malaysian timber products are manufactured from sustainable sources. The seminars were attended by participants representing local government agencies, timber industry, consumer associations and private companies in Australia. MTCC's presentation at the seminars entitled *The Malaysian Timber Certification Scheme (MTCS) – Your Assurance of Sustainable and Legal Timber* touched on the operation of the MTCS, achievement in terms of certified areas and CoC companies, PEFC endorsement, recognition of the scheme internationally and export of PEFC-certified timber products from Malaysia.

### Business Visit to United State of America

*IWPA Convention: Chew Lye Teng making presentation (top); general view of audience (bottom)*

MTCC participated in a Business Visit to the United States of America on 9 - 20 April organized by the MTC. The Visit, which covered the cities of Los Angeles, New Orleans and Memphis, was held in conjunction with the participation of a Malaysian delegation at the 55th World of Wood Convention of the International Wood Products Association (IWPA) which took place in New Orleans on 13 - 15 April.

The main objectives of the Business Visit were:

- (i) to enhance trade relations and increase timber trade with the USA;
- (ii) to promote Malaysian timber products and create awareness on the MTCS in the USA;
- (iii) to exchange ideas and information on timber utilization and explore business opportunities; and
- (iv) to look into remanufacturing opportunities with USA manufacturers and explore the possibility for sourcing of American hardwood.

The 12-member delegation comprised representatives from MTC, Sarawak Timber Industry Development Corporation (STIDC), Sarawak Timber Association (STA), timber companies and MTCC's representative, CEO Chew Lye Teng.

The main objective for MTCC's participation was to generate more awareness on the MTCS in the USA market and provide an update on the MTCS, particularly its endorsement by the PEFC.

During the IWPA Convention, the presentation by MTCC highlighted the PEFC endorsement and international recognition of the MTCS. More than 260 participants attended the Convention including from overseas.

MTCC also participated in the *Seminar on Malaysian Timber Industry* in Los Angeles organised for timber importers and distributors, and the discussion with the National Hardwood Lumber Association (NHLA) in Memphis, to highlight the latest development in the MTCS and the availability of PEFC-certified timber products from Malaysia.

## Updating Key Contacts in Germany

On 2 - 8 November, CEO Chew Lye Teng took advantage of his attendance at the PEFC General Assembly in Montreux, Switzerland, to hold discussions with key contacts in Germany to update them on the latest developments in the MTCS.

Discussions were held with federal ministries i.e. the Ministry for Food, Agriculture and Consumer Protection (which is in charge of the federal public procurement policy) and the Ministry for Environment, Nature Conservation and Nuclear Safety, associations i.e. the German Timber Trade Federation (GD Holz) and the Federal Association of the German DIY Stores and one of its members, Globus Boumarkt, NGOs i.e. Association for the Protection of German Forests (SDW) and the department in charge of environment and forestry matters in the State of Bremen. Meetings were also held with a Member of the German Parliament (Bundestag), Georg Schirmbeck, who is also the President of the German Forestry Council.

During these discussions the CEO highlighted the international recognition of MTCS as a PEFC-endorsed scheme, availability of PEFC-certified products and Malaysia's leading position as a source of certified tropical timber products. The itinerary also included meetings with journalists from timber-related publications during the German Timber Day 2011 in Cologne and visits to several project sites in Hamburg, where MTCS-certified laminated scantlings had been used in window frames.

*Chew Lye Teng (right) being interviewed by Thomas Heinen, Daehne publishing house (left), and Hans-Ludwig Ziegler, chief editor of magazine HOLZFORUM (second from right), with Guntram Kaiser (second from left) looking on*

*Photo on left: Chew Lye Teng (right) being interviewed by Walter Pitt, journalist of magazine 'Boden Wand Decke' (Floor, Wall & Façade) (centre) with Guntram Kaiser, Kaiser Communication looking on*

Four building projects involving the use of wooden windows made from MTCS-certified laminated scantlings have been built in Hamburg as a result of the full recognition of the MTCS by the City of Hamburg.

Three of the projects by the wooden window manufacturer, Sehlmann, use MTCS-certified Dark Red Meranti laminated scantlings wooden windows type IV68 with historical special frames, wooden rungs window and sound insulating window of type IV78. In total, 730 wooden windows were installed in three buildings. Two of the buildings were heritage

## PROMOTION

buildings in the centre of Hamburg where the refurbishment of the old heritage buildings were executed in co-operation with the Monument Protection Authority of Hamburg.

The fourth project involved two different school buildings i.e. an elementary school and a district school. This project was co-financed between the wooden window manufacturer, Radbruch and the city of Hamburg. This project has resulted in a total of 234 wooden windows using MTCS-certified laminated scantlings being installed.

There are other buildings which use MTCS-certified laminated window scantlings across Germany, e.g. in Kühlungsborn and Heidelberg.

*Buildings projects by wooden window manufacturer, Sehlmann in the Hein-Hoyer-Str. 23/Simon-von-Utrecht-Str-89 (top left) and in the Stein str 5-7 (top middle) are heritage buildings in the centre of the city of Hamburg while the building in Eddelbüttelstraße 1 has been installed with sound insulating wooden windows (top right). ## Publicity Programmes / Exhibitions

Publicity brochures as well as information on the developments related to the MTCS were distributed during fairs and exhibitions in which MTCC participated, such as:

- SPOGA 2011, Cologne, Germany - Jointly with PEFC Germany (September)
- Bonn Forest Day 2011, Bonn Germany - Jointly with PEFC Germany (October)
- MICCOS 2011, Serdang (October)
- German Timber Day, Cologne, Germany - Jointly with MTC (November)

Visitors at PEFC and MTCC joint booth during International Bonn Forest Day 2011

Fong Lai Lyn, MTC London (left), Cheah Chi Ern, (centre) and Deniz Ulusoylu, Kaiser Communication at the MTC and MTCC joint booth during German Timber Day

MICCOS 2011: Harnarinder Singh explaining to Dato' Hamzah Zainuddin, Deputy Minister of MPIC and Datin Paduka Nurmala Abd Rahim, Secretary General of MPIC regarding the PEFC-certified garden furniture being displayed which was sponsored by Supreme Tropical Furniture Sdn. Bhd. (left), Chew Lye Teng presenting a paper on MTCS at the International Timber Marketing Conference organised by MTC (centre) and the MTCC display during MICCOS 2011 (right)

At the international level, MTC continued to assist in distributing the MTCC brochures at a number of fairs and exhibitions in which MTC participated, such as:-

- Delhiwood, New Delhi, India (17-20 February)
- Kyung Hyang Housing Fair, Seoul, South Korea (23-27 February)
- Ecobuild, London, UK (1-3 March)
- Domotex, Shanghai, China (22-24 March)
- Woodshow, Dubai, UAE (5-7 April)
- Timber Expo, London, UK (May)
- Showcase Malaysia, Mumbai, India (12-14 October)
- MADE Expo, Milan, Italy (19-21 October)
- NAWLA Traders Market, Las Vegas, USA (19-21 October)
- Batimat, Paris, France (7-12 November)

In 2011, MTCC published three issues of the *MTCC News* to keep certificate holders and stakeholder groups updated on the latest developments in the MTCS and matters related to timber certification and SFM.

## Publication

The following press releases/articles/information updates were issued by MTCC and were also posted on the MTCC website:

- *Update on the Review of the MC&I(2002)(13 January)*
- *New Normative and Guidelines Documents Related to MC&I(2002) (18 February)*
- *ANNOUNCEMENT: Review of the MC&I(2002) – Third Public Comment (14 May -12 July 2011) (13 May)*
- *REMINDER to Submit Comments on the Final Draft of MC&I(Natural Forest) (24 June)*
- *ANNOUNCEMENT: Conclusion of Third Public Comment on Final Draft MC&I(Natural Forest) (2 August)*
- *PEFC Launches Global Consultation on tropical natural forests (14 October)*
- *Efforts towards sustainable forestry management undermined by SMK decision (20 October)*
- *MICCOS 2011!! (24 October)*
- *MTCC's reply to 'The Star' article Rewriting the rules - Forestry guidelines (11 November)*

The following press releases were issued by MTCC's public relations agency (Kaiser Communication) in Germany:

- The first PEFC-certified timber products under the MTCS are available in Germany
- spoga+gafa 2011: PEFC-certified garden furniture from Malaysia will be exhibited

Throughout 2011, the following print / online publications published editorials and special feature reports on MTCC and the MTCS:

- |                                     |                               |
|-------------------------------------|-------------------------------|
| • Houtkrant (The Netherlands)       | • Holz-Zentralblatt (Germany) |
| • Cobouw (The Netherlands)          | • EUWID (Germany)             |
| • Volkskrant (The Netherlands)      | • Glaswelt (Germany)          |
| • HoutWereld (The Netherlands)      | • Parkett Magazin (Germany)   |
| • NRC Handelsblad (The Netherlands) | • Dds (Germany)               |
| • Trouw (The Netherlands)           | • Holz Forum (Germany)        |
| • Timber online (Germany)           | • Holz.net (Germany)          |
| • Bauernzeitung online (Germany)    | • Forstpraxis (Germany)       |
| • Netzwerk Holz (Germany)           | • Fordaq (Germany)            |

## Participation in Conferences / Seminars / Workshops / Courses / Meetings

In 2011, MTCC also participated in a number of international and local conferences, seminars, workshops, courses and meetings during which presentations on the MTCS and other activities were made. These included the following:-

- *Malaysian Timber Seminar* organised by MTC, 20 - 21 January, Singapore
- *PEFC Seminar: Your Sustainability Initiative* organised by Spicers Paper (M) Sdn. Bhd., 24 February, Subang Jaya
- *Sustainable Opportunities for Your Business: The Why, What and How* organised by Spicers Paper (Singapore) Pte. Ltd. And DNV Business Assurance Pte. Ltd., 25 February, Singapore
- *MTC Familiarisation Programme for Trade Journalists*, 26 October, Kuala Lumpur
- *Industry Update 2011: Challenges & Opportunities* by Transparency International (TI) Malaysia, 12 July, Kuching
- *Workshop on Technology that Promotes Transparent Timber Trade in Asia and the Pacific Region* organised by TRAFFIC, 27-29 July, Kuala Lumpur

- *Industry Briefing and Clinic on Enhancing the Bankability and Sustainability Practices of the Timber and Furniture Entrepreneurs Malaysia* organized by MTIB and HSBC, 12 October, Kuala Lumpur
- *Capacity building for Compliance with Requirements for Certification under MTCS* by MTIB, 15 November and 15 December, Kuala Lumpur and Ipoh respectively

MTCC also conducted the following seminars and briefing sessions in 2011:

- Dialogue session and briefing on *MC&I*(Forest Plantations) to Sarawak Planted Forest Sdn. Bhd., 21-24 February, Bintulu
- Briefing on *MC&I*(2002) to FDPM officers, forest rangers and foresters (Eastern zone), 5-7 April, Kota Bharu
- Briefing on *MC&I*(2002) to FDPM officers, forest rangers and foresters (Southern zone), 25-27 April, Johor Bharu
- Briefing on *MC&I*(2002) to FDPM officers, forest rangers and foresters (Central zone & FDPM HQ), 10-12 May, Kuantan
- Briefing on *MC&I*(2002) to FDPM officers, forest rangers and foresters (Northern zone), 23-25 May, Ipoh
- Briefing to CoC certificate holders on *PEFC ST 2002:2010 Chain of Custody of Forest Based Products - Requirements*, 6, 10 and 20 October, in Ipoh, Kuantan and Kuala Lumpur respectively
- Briefing to CoC certificate holders on *PEFC ST 2002:2010 Chain of Custody of Forest Based Products - Requirements*, 8 and 9 November, in Bintulu and Kota Kinabalu respectively

*Dialogue session and briefing on MC&I(Forest Plantations) to Sarawak Planted Forest Sdn. Bhd*

*Briefing to CoC certificate holders on PEFC ST 2002:2010 in Kuantan (top left), Ipoh (top middle and right), Kota Kinabalu (bottom left), Bintulu (bottom middle) and Kuala Lumpur (bottom right)*

# RECOGNITION OF MTCS

As a PEFC – endorsed scheme, the MTCS has been accepted under the national timber procurement policies of Denmark, United Kingdom, Germany, Finland, Belgium, Switzerland and France as well as the Keurhout System of The Netherlands as meeting the requirements for sustainable timber.

In addition, the authorities in the following countries and several Green building systems have recognised and accepted the MTCS:

## Public Procurement Policies (PPPs)

### Japan

The MTCS is listed as one of the certification schemes in the *Guideline for Verification on Legality and Sustainability of Wood and Wood Products* issued by the Forestry Agency, Ministry of Agriculture, Forestry and Fisheries, Japan. (April 2006)

### The Netherlands

The MTCS is accepted under the Keurhout Protocol for Legal Origin (KH-LET) in The Netherlands. In addition, nine FMUs and 177 Certificate for Chain of Custody under the MTCS are accepted under the Keurhout Protocol for Sustainable Forest Management (KH-SFM)

The Dutch Ministry of Housing, Spatial Planning and Environment (VROM) has accepted the MTCS certificate as meeting the requirements for legality of timber. (April 2007)

### New Zealand

The Ministry of Agriculture and Forestry, New Zealand recognises the MTCS in its Timber and Wood Products Procurement Policy (November 2008)

### Germany

As a PEFC – endorsed scheme, MTCS is accepted under the German Federal public procurement policy for timber (December 2009)

The City of Hamburg fully accepts the MTCS in its procurement policy (December 2009)

## Green Building Systems

As a PEFC – endorsed scheme, the MTCS is recognised under several green building schemes such as in Australia, Italy, Singapore, The Netherlands, UK, Canada, USA, Japan and Abu Dhabi, UAE.

In addition, the Green Building Index (GBI) in Malaysia recognises the MTCS under its Sustainable Timber criteria.

## Evaluation of MTCS by the Timber Procurement Assessment Committee of The Netherlands

With regard to the assessment of the MTCS by the *Timber Procurement Assessment Committee* (TPAC) in The Netherlands, on 22 October 2010, the TPAC concluded that the MTCS had not conformed to the Dutch Timber Procurement Criteria for Timber. On 3 December 2010, MTCC filed a *Notice of Appeal* to the Board of Appeal against the TPAC Revised Final Judgement on the MTCS.

Subsequent to the filing of appeal by MTCC, the Board of Appeal held a hearing on 5 August in Utrecht, The Netherlands. The hearing, involving MTCC (as appellant), TPAC (as respondent) and the Dutch civil society coalition which had lodged a conditional cross-appeal, was conducted by a three-member Board. Unfortunately, the Board in its 9 November decision upheld TPAC's negative judgement of the MTCS and stated that it did not take into consideration any new development and improvement on the MTCS after the negative decision made on 22 October 2010.

## PEFC RELATED ACTIVITIES

### PEFC 15<sup>th</sup> General Assembly

The 15<sup>th</sup> General Assembly of the PEFC Council, held on 11 November in Montreux, Switzerland, was attended by approximately 100 Members and Extraordinary Members, invited guests and members of the Board of Directors.

The report for 2010 by Ben Gunneberg, PEFC Secretary General, highlighted the increase of 16% (8,585) in the number of chain of custody certificates, the increase of 20% (12,086) in the number of companies covered, the increase of 6.5% (15 million ha) in the forest area certified (in Belarus, Latvia, Poland), the new members [Argentina, China, Russia (re-joined), Building and Woodworkers International, Earth Focus Foundation] and the new International Stakeholder Member applicant (APP Timber).

On the implementation of the PEFC marketing plan, he highlighted the importance of the validation of public procurement policies, stressing that inclusive policies reduce risk, expand supply and ensure widest sourcing. In this connection, the TPAC process in The Netherlands was identified as being particularly challenging, with the appeal of the NGOs against the TPAC decision on acceptance of PEFC International being due to be heard in February 2012. The parallel process involving the MTCS was also mentioned. In independent initiatives, such as 'green building' systems, the remaining challenge posed by the US Green Building Council was mentioned.

Other important aspects highlighted in the 2010 report were the activities to expand PEFC's profile, the growth of the scheme in Russia and Central Africa, standards revision, endorsements and re-endorsements (Austria, Belarus, Sweden, USA), capacity building, training and support.

From MTCC's viewpoints, the most important developments related to the 15<sup>th</sup> General Assembly were (i) the presentation by Wang Wei, Chairman of the China Forest Certification Council (CFCC) the newly elected national scheme from China, (ii) the presentations by Dr. Dilip Kumar, Director General and Head of the Indian Forest Service and Special Secretary to the Government of India and Dr. Dradjad Wibowo, representing the Indonesian Forestry Certification Cooperation (IFCC), and (iii) the election of Mrs. Sheam Satkuru-Granzella, Director of MTC London as Vice-Chairman of the PEFC Council.

The admittance of the CFCC as a member of the PEFC is a significant event, in view of China's current position and role in the world economy and trade. In addition, if the interest shown by India is able to result in a decision at a later stage to join the PEFC, the presence of two of Asia's largest economies will provide an important boost to PEFC's profile and image in the Asia Pacific region.

Prior to the General Assembly, a PEFC Stakeholder Dialogue on 9 November, followed by a PEFC Members Meeting on 10 November were also held at the same venue.

### PEFC Stakeholder Dialogue

PEFC Board of Directors at PEFC 15<sup>th</sup> General Assembly, (left to right) Sheam Satkuru-Granzella, Robert Simpson (Vice-Chairman), Bill Street (Chairman), Antti Sahi (Vice-Chairman), Genevieve Chua

Professor Sten Nilsson delivering key note address at PEFC Stakeholder Dialogue

With the theme *Recognizing the Real Value of Forest Products in a Changing Climate*, the PEFC Stakeholder Dialogue was attended by about 100 representatives from a wide variety of organisations.

The keynote address for the Dialogue entitled *Contributions of the Forest Sector in a Green Economy* was presented by Professor Sten Nilsson, CEO of Forest Sector Insights AB, Sweden. He made the following key points:

- (i) Green economy has many 'R's: Reduce, Re-use, Re-cycle, Replace, Re-design, Rebuild, Re-define, Revive, Regenerate, Reform, Re-organize, Re-imagine, and be Resilient;
- (ii) Green economy is the transition of the total economy and not just a subset of the economy;
- (iii) The biggest potential impact on greening the economy by the forest sector is the use of forest products and services in other sectors by replacing finite resources and harmful raw materials;
- (iv) What the forest sector can do to contribute to the green economy: get actively involved in the green economy theme of RIO+20 (Rio de Janeiro, 2012), push national policy setting on green economy; demonstrate what the forest sector can do in greening the economy; demonstrate that the forest sector can be the lead sector in the transformation to green economy;
- (v) It has to be proven that the new economy will be a quality and smart economy contributing to the consumer's quality of life;
- (vi) The forest sector is ahead of most sectors on the sustainability path and can take the lead on the green economy path;
- (vii) The forest sector should demonstrate how it can contribute to the solutions of major societal concerns under a green economy;
- (viii) The forest sector should produce a concrete vision on how to green the economy with needed policy changes and implementation schedules; and
- (ix) The forest sector should establish innovation networks for greening of the economy and establish partnerships outside the conventional sector. R&D&D (design) & P (psychology – to convince) instead of just R&D.

Three panel sessions were held during the Dialogue, dealing with *Where Wood Stands: Opportunities & Challenges in Promoting the Sustainability of Forestry, Products and Trade* (Panel 1), *Incorporating Forest Values throughout the Production Chain* (Panel 2) and *Building on Timber: Latest Initiatives and Innovations to Position the Sector* (Panel 3).

## CERTIFIED FORESTS UNDER VARIOUS CERTIFICATION SCHEMES

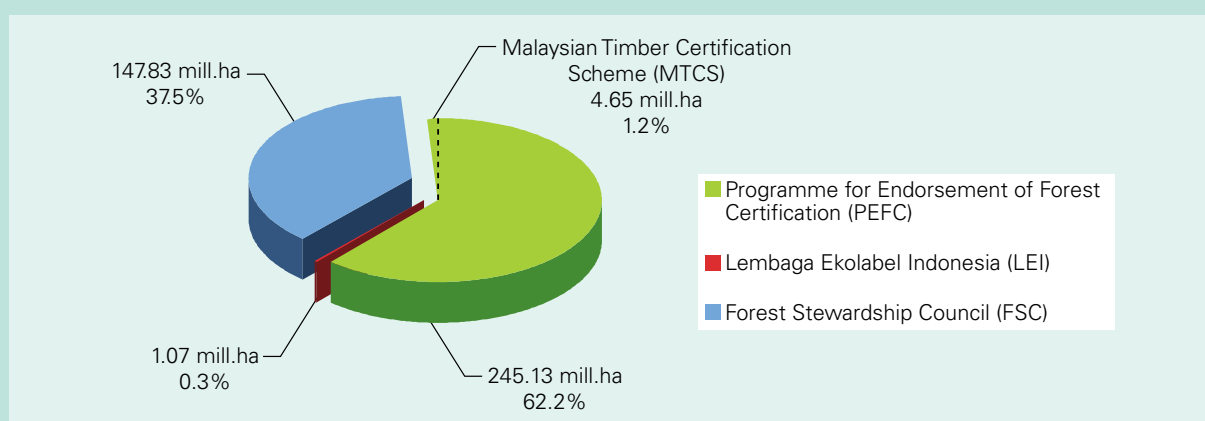

In the year 2011, the total area of certified forest worldwide saw an increase to 394.03 million ha, up 5.2% from 2010 (374.63 million ha).

The 394.03 million ha certified forest represented nearly 10% of the total global commercial forest area. Of this total, 245.13 million ha (62.2%) were certified under the PEFC scheme which included the MTCS (4.65 million ha or 1.2%), 147.83 million ha (37.5%) under the FSC scheme, and 1.07 million ha (0.3%) under the Lembaga Ekolabel Indonesia (LEI) (**Figure 7**)<sup>1</sup>.

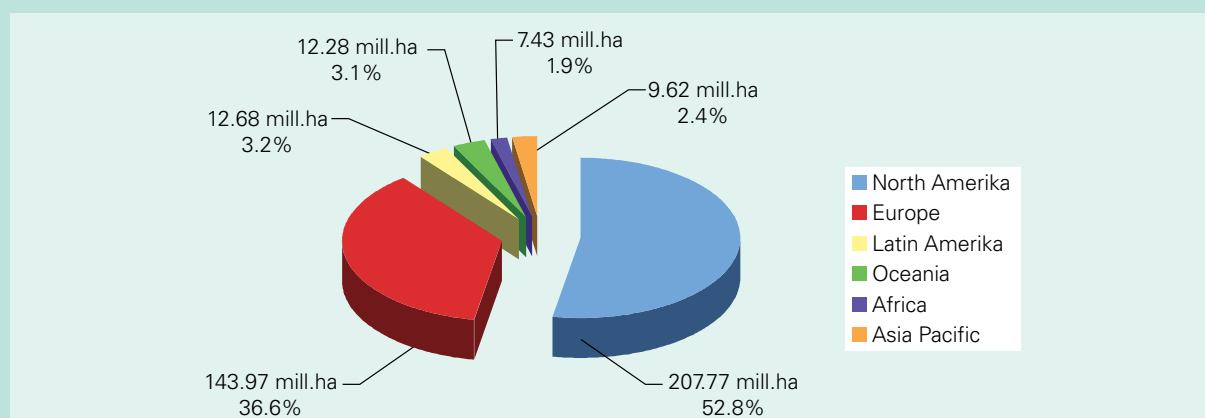

The PEFC-certified forests in Europe accounted for 80.00 million ha. Outside Europe, besides the MTCS which accounted for 4.65 million ha, the PEFC-certified forests also included 56.88 million ha under the Canadian Standards Association (CSA), 90.35 million ha under the Sustainable Forestry Initiative (SFI) and American Tree Farm System (ATFS) of the USA, 10.06 million ha under the Australian Forestry Standard (AFS), 1.91 million ha under the Chilean Standard for Sustainable Forest Management (CERTFOR), and 1.26 million ha under the Brazilian Programme of Forest Certification (CERFLOR).

In terms of geographical distribution (**Figure 8**), still more than half (52.8%) of the world's certified forests were located in North America, with around one-third (36.6%) in Europe. The certified forest area outside Europe and North America only accounted for 10.6% of the global total, of which 2.4% was in the Asia-Pacific region.

**Figure 7: Certified Forests under Various Certification Schemes**

# COOPERATION

## Malaysian Forest Dialogue

The Malaysian Forest Dialogue (MFD) Steering Committee, in which the MTCC is a member, once again organised a forum on 6-7 July in Kuala Lumpur with the theme Code of Conduct: *Strengthening Confidence in the Timber Industry*. The MFD 2011 was the fifth in the series of dialogues that had been held over the period 2006-2009. This time around, the Steering Committee chose to explore the potential of a code of conduct for the timber industry in Malaysia, as a means to provide guidance for responsible business practices that will help to enhance the industry's reputation.

Opinion leaders from various sectors, representing ethical business advocates, palm oil, pulp and paper, chemical, packaging and the food industry, shared their experiences on the development and promotion of a code of conduct. Representatives of timber industry associations and federations in the U.K., USA and The Netherlands, and a major timber products retailer from Australia, also spoke on how their codes of conduct were developed and applied.

More than 150 participants representing the various relevant ministries and agencies, timber industry, forestry authorities, academia, banks, social and environmental non-government organisations (NGOs), and invited observers from Cambodia, China, Indonesia, Laos, Myanmar, Thailand and Vietnam attended the event.

Tan Sri Bernard G. Dompok, Minister of Plantation Industries and Commodities, in his keynote address, highlighted that Malaysia is one of the five tropical timber producing countries that have been lauded by the ITTO as making notable progress in the implementation of SFM. The implementation of the MTCS since 2001 has contributed to this recognition. He suggested that the Malaysian timber industry should consider developing its code of conduct to provide confidence to consumers that the industry follows ethical business practices, where the timber and wood-based products are from legal and sustainable sources.

The first day saw presentations that provided an overview of code of conduct in various sectors, and the key drivers for the code. The different *Codes of Practices or Conduct* of the mostly non-timber industries sectors presented showed that codes can range from a set of rules on proper business conduct of the sector or an organisation, an employee's work behaviour, or an industry or company's responsibilities towards its employees or to communities. When related to

forestry, corporate codes of behaviour deal mainly with sustainability of forest resource, efficiency of material or energy use, product quality and resultant profitability. Having a code for the timber industry could be helpful in ensuring industry members' compliance with consumers' requirements for legality and sustainability status of their timber products.

On the second day, speakers shared their experiences in developing and implementing a code of conduct. The UK Timber Trade Federation (TTF) informed that under its *Responsible Purchasing Policy*, risk assessments are systematically undertaken for its membership, and that members are committed to the *TTF Code of Conduct and apply the Environmental Code of Practice* as well in their wood procurement. The Royal Netherlands Timber Trade Association (NTTA) members have to abide by its policy that requires them to provide an annual statement of the volume of certified and verified legal timber imported. The American IWPA has its *Code of Conduct* and standards motivating its members who voluntarily agree to seek and provide the clearest practical information regarding product sources.

The participants heard that developing a corporate code of conduct takes time and requires increasing engagement with a wide range of stakeholders and a commitment to responsibility, transparency and continuous improvement. The code needs to be communicated widely to the industry players.

The panel discussions focused on the way forward for code of conduct, with diverse opinions expressed by the government, industry and NGO representatives. Questions on whether the market would pay a premium to compensate for the extra work and investment in coming up with a code, what gaps the code was intended to address, and why the industry needs to follow the dictates of the market, were posed. The Dialogue agreed that even though the code of conduct is not similar to certification, it is nevertheless a positive way to meet the expectations of the market, by evidence of commitment to good practices.

## Tenth Meeting of the Working Group on a Pan ASEAN Timber Certification Initiative

Chew Lye Teng delivering the opening remarks (left), Working Group in session (middle), Malaysian delegates during the Meeting (right)

The Tenth Meeting of the *Working Group on a Pan ASEAN Timber Certification Initiative* was held in Yogyakarta, Indonesia on 25-26 May. It was attended by delegates from six ASEAN Member States (AMS), i.e. Brunei Darussalam, Cambodia, Indonesia, Lao PDR, Malaysia and Myanmar, and the ASEAN Secretariat. A representative from the European Union (EU) FLEGT Asia Programme was also present to report on training activities related to the WG's work carried out under the Programme.

The Meeting was updated on the development of C&I for legality of timber, sustainable forest management/forest management certification and implementation of timber certification through the Country Reports presented by each AMS. The Meeting agreed that the AEC Score card be updated based on the Country Reports presented and submitted for consideration of the 14<sup>th</sup> ASOF Meeting. The Meeting also discussed the targets within the AEC Blueprint and recognised that ASEAN would need to specify the requirements for legal and sustainable timber to be met by timber

product manufacturers and exporters within the ASEAN market, as there are many existing initiatives already undertaken by the AMS, such as timber certification and EU-FLEGT VPA.

The Meeting further agreed to look into the possibility of appointing a consultant to take stock of the existing initiatives and consider these initiatives as references to meet the targets set in the AEC Blueprint. Malaysia developed the first draft of the TOR for the consultant, which was circulated to the AMS in July for their comments and finalisation. The ASEAN Secretariat was also requested to inform the WG on the possibility of funding sources for this project and its implementation.

The WG discussed the *ASEAN Guidelines for CoC of Legal Timber and Sustainable Timber* which had been endorsed by the 32<sup>nd</sup> AMAF Meeting held on 23 October 2010 in Phnom Penh, Cambodia. The Meeting agreed to make slight amendments and circulate the draft artwork for publication to the AMS for finalisation.

The FLEGT Asia Programme representative presented the outcome of the first *Sub-Regional Training Workshop on Timber Legality Assurance Systems* that was held in Hanoi, Viet Nam. The representative also proposed a similar training workshop for the Mekong region, based on the ASEAN C&I for timber legality. In relation to this, the second *Sub-Regional Training Workshop* was subsequently held on 25-27 October in Kota Kinabalu.

Indonesia and Malaysia also shared their respective experiences on their negotiations with the EU on the VPA. The Meeting took note that the FLEGT-VPA between the EU and Indonesia had been concluded. There was also exchange of information on experiences related to the implementation of the Lacey Act and its impact, particularly on timber trade and export market.

The WG participants visited a certified community forest and a certified community timber industry, to witness agroforestry practices. The environmental aspects that were emphasised included selective harvesting, replanting of harvested areas, no harvesting near water sources and no hunting of protected fauna.

### EU Forest Law Enforcement, Governance and Trade Voluntary Partnership Agreement (EU FLEGT VPA)

Due to its involvement in the various aspects of SFM and CoC of certified timber products in the MTCS, MTCC continued to provide technical support to the ongoing negotiations between Malaysia and the European Union on the EU FLEGT Voluntary Partnership Agreement (VPA), especially related to the Timber Legality Assurance System (TLAS), which is one of the core components of the VPA. As part of this supporting role, MTCC participated in meetings of the relevant working groups, the National Steering Committee as well as the stakeholder consultations and briefings.

### Project on Formulation of Guidelines and Procedures for Social Impact Assessment and Monitoring of Forest Management Operations

The project on the *Formulation of Guidelines and Procedures for Social Impact Assessment and Monitoring of Forest Management Operations* was conceptualised and implemented to take into account the need for the conduct and monitoring of social impact assessment (SIA) of forest management operations as prescribed in the *MC&I(2002)*. The project which commenced in January 2010 was implemented by the Institute of Tropical Forestry and Forest Products (INTROP), Universiti Putra Malaysia (UPM).

Four Project Technical Committee (PTC) meetings were held throughout the year to deliberate on the progress of implementation of the project. The Third Meeting of the PTC held on 5 May discussed the questionnaires taking into account the feedback received from the Stakeholder Workshop, while the Fourth Meeting held on 1 June deliberated on the first draft of the Guidelines.

The first draft was subjected to a one-month Public Comment period from 22 July to 21 August. The comments received from the various stakeholder groups were considered and incorporated by INTROP resulting in the second draft of the Guidelines.

The Fifth Meeting of the PTC held on 24 October deliberated on the second draft, resulting in the third draft. Additionally, the Fifth Meeting deliberated on the Project Final Report.

The Sixth Meeting of the PTC held on 15-16 December further deliberated on and finalised the third draft of the Guidelines. Besides the members of the PTC, four additional representatives from FDPM i.e. one each from the Pahang, Perak, Kelantan and Negeri Sembilan State Forestry Departments, also participated in the Sixth Meeting to provide their views regarding the practical aspects of applying the Guidelines in their respective FMUs. The Sixth Meeting agreed that a special meeting should be convened so that representatives from more State Forestry Departments as well as the Department of Orang Asli Development (JAKOA) could be invited to provide further feedback on the content and practicability of the Guidelines. The Meeting also agreed that the final draft should be subjected to one final round of public comment in early 2012.

*Fifth Meeting of the PTC*

*Sixth Meeting of the PTC*

### Pilot Study on Group Certification of Rubber Smallholdings under MTCS

Rubberwood is the main raw material used by the Malaysian furniture industry for the manufacture of wooden furniture and it is mainly harvested from small-holdings with an average area ranging from 1.5 – 3.0 ha.

In view of the increasing demand by the international market for timber products, including furniture, that are certified for sustainability, and the relatively small size of the rubber small-holdings which render them uneconomic to undergo individual certification, the implementation of group certification of rubber small-holdings under the MTCS is being explored.

The *Pilot Study on Group Certification of Rubber Smallholdings under the MTCS* has therefore been conceptualised and implemented with the following objectives:

- (i) Develop a manual on the requirements of the *MC&I*(Forest Plantations) and how rubber small-holders can meet these requirements under a group certificate;
- (ii) Develop the administrative arrangements for managing a group of small-holders for group certification under the MTCS; and
- (iii) Provide information on the cost of group certification of rubber small-holders under the MTCS.

The project, to be implemented over 24 months, is spearheaded by MTIB in collaboration with the MTCC, MTC, MFPC, Malaysian Rubber Board, Federal Land Development Authority (FELDA), Rubber Industry Smallholders Development Authority (RISDA) and Federal Land Consolidation and Rehabilitation Authority (FELCRA). A project Group Manager has been appointed in December to oversee the implementation of the project which will be conducted in FELDA Bukit Rokan in Negeri Sembilan.

Two committees have been formed to oversee the implementation of the project, i.e. a Project Steering Committee (PSC) to provide advice and overall decision-making pertaining to technical and financial matters, as well as to monitor the progress of project implementation; and a Project Technical Committee (PTC) to provide technical advice on the implementation of project activities.

Throughout the year, the PSC met three times i.e. on 7 June, 6 December and 22 December while the PTC met once on 13 September.

### Capacity Building for Compliance with Requirements for Certification under MTCS

In order to boost the export and supply of certified timber products from Peninsular Malaysia, the Malaysian Timber Industry Board (MTIB) embarked on a two-year project in 2011 funded under the Timber Industry Development Levy Fund (*Tabung Levi Pembangunan Industri Kayu-Kayan Malaysia*). The Project entitled "Capacity Building for Compliance with the Requirements for Chain of Custody Certification under MTCS" is aimed at increasing the number of PEFC-certified timber manufacturers and exporters in Peninsular Malaysia, as well as is aimed at providing financial assistance to the companies to obtain PEFC certification under the MTCS. The project was approved by the National Committee of the Timber Industry Development Levy Fund on 25 May 2011.

To provide more details of the project, a number of briefing sessions were conducted, with the first session held on 2 November in Kuala Lumpur and the second in Ipoh on 15 December. More briefing sessions had been planned for 2012 to be held covering the other parts of Peninsula Malaysia. The briefing sessions covered overall information pertaining to the project (presented by MTIB); the requirements for legal and sustainable timber in the global market (presented by MTC); and details on obtaining PEFC CoC certification under the MTCS (presented by MTCC).

Timber companies that participate in this project will be provided with incentives in the form of financial assistance to meet the cost of consultancy for up to a maximum sum of RM5,000 and will be reimbursed 60% of the total auditing cost or a maximum of RM6,000, whichever is lower, to achieve CoC certification.

The consultancy services provided will assist the company in the preparation of the necessary documents such as the standard operating procedures (SOP), internal audit and management review reports that are needed by the company to comply with the CoC requirements for certification under the MTCS. The consultant will also provide training to the company staff.

### Conservation of Biodiversity through Improved Forest Planning Tools Project

The main objective of the *Conservation of Biodiversity through Improved Forest Planning Tools Project* (or in short the CBioD project) is to develop tools and generate knowledge needed to ensure that forestry production systems are planned and managed in a manner which will contribute to biodiversity conservation.

The five-year project is funded by contributions from UNDP-GEF, International Tropical Timber Organisation (ITTO), Forest Research Institute Malaysia (FRIM), University of Miami & Duke University, USA and Perak Integrated Timber Complex (PITC), and is implemented by FRIM with the Ministry of Natural Resources and Environment (NRE) as the national Executing Agency. The project which commenced in April 2007 is scheduled to be completed in 2012.

MTCC is involved in the implementation of the project as a member of the Technical Working Committee (TWC) which provides advice on technical issues related to project implementation, as well as to provides a platform for engaging the relevant stakeholder groups, i.e. the Perak State Government, Forestry Department Peninsular Malaysia, NGOs and local universities. MTCC participated in two meetings of the TWC held on 23 March and 22 November.

The project is implemented in the PITC concession area which comprises some 9,000 ha of hill forest within the Temenggor Forest Reserve in the state of Perak. The project is expected to yield the following major outputs:

- (i) Forest planners in Perak incorporate tools to measure impacts on biodiversity in their forest management planning;
- (ii) Forest planners in Perak utilise tools for full valuation of goods and services in their forest management planning and operations;
- (iii) Forest planners in Perak integrate ecological and economic tools in forest planning decisions at a landscape level; and
- (iv) Capacity exists to apply methods developed by the project in tropical forest management operations.

A *Hands-on Training for CBiod Rapid Biodiversity Assessment Toolkit* was conducted on 11-15 April to help forest managers in assessing biodiversity using a standard and tested methodology.

## SIGNIFICANT EVENTS

MTCC organised/coordinated the following local events in 2011:

Local Events	Date	Venue
Third Meeting of the Panel of Experts on the Review of the <i>M&amp;I</i> (2002)	27 & 28 January	Kuala Lumpur
Dialogue session and briefing on <i>MC&amp;I</i> (Forest Plantations) to Sarawak Planted Forest Sdn. Bhd.	21-24 February	Bintulu
Second Meeting of Standards Review Committee (SRC)	16-18 March	Miri
Briefing on <i>MC&amp;I</i> (2002) to FDPM officers, forest rangers and foresters (Eastern zone)	5-7 April	Kota Bharu
Briefing on <i>MC&amp;I</i> (2002) to FDPM officers, forest rangers and foresters (Southern zone)	25-27 April	Johor Bharu
Briefing on <i>MC&amp;I</i> (2002) to FDPM officers, forest rangers and foresters (Central zone & FDPM HQ)	10-12 May	Kuantan
Briefing on <i>MC&amp;I</i> (2002) to FDPM officers, forest rangers and foresters (Northern zone)	23-25 May	Ipoh
Third Meeting of Standards Review Committee (SRC)	20-22 September	Langkawi
Training for Auditors on PEFC ST 2002:2010 Chain of Custody of Forest Based Products - Requirements	3 October	Kuala Lumpur
Briefing to CoC certificate holders on <i>PEFC ST 2002:2010 Chain of Custody of Forest Based Products - Requirements</i>	6 October	Ipoh
	10 October	Kuantan
	20 October	Kuala Lumpur
	8 November	Bintulu
	9 November	Kota Kinabalu

MTCC held discussions with the following visitors in 2011:

Visitors	Date
Ceylon Institute of Builders (CIOB) K. Cyril De Silva Dr. Rohan Karunaratne Ranji Hewage Pjayason	3 March
Stiho (The Netherlands) Bart Dekkers, Henk Lozeman & Pieter Krook	22 March
Delegation from Ministry of Environment & Forestry, India Dr. P. J. Dilip Kumar, Director-General of Forestry & Special Secretary to Ministry of Environment & Forestry, India A. M. Singh, Deputy Inspector General of Forests Dr. H. S. Gupta, Professor, Indian Institute of Forest Management, Bhopal	29 March
Performance Management and Delivery Unit (PEMANDU), Prime Minister's Department, Malaysia Dr. Sarinder Kumari Tan Sven Sern	9 May
Mike Moscoe, International Market Strategies Inc., USA Anne Tan, Dyera-Tim Sdn. Bhd.	9 June
Tang Chi Lin, SGS Singapore	26 July
Tom Trooster, Timber Trade Connection BV Ng Kay Yip, Maran Road Sawmill Sdn. Bhd.	27 September
Travis Wacey, Forestry and Furnishing Products Division, Construction, Forestry, Mining and Energy Union, Australia Adam Kaminski, Building and Woodworkers International Asia-Pacific	21 October
Sarah Price, PEFC International Michael Buckley, Turnstone, Singapore	27 October
Bob Ziegler, ZiOSS Sdn. Bhd. Samantha Mun, CKF Rods Sdn. Bhd.	30 November

## SIGNIFICANT EVENTS

MTCC participated in the following international events in 2011:

International Conferences/Seminars/ Workshops/Meetings	Date	Venue
Malaysian Timber Seminar – organised by MTC*	20-21 January	Singapore
International Conference on “The Law on Customary Lands, Territories and Resource Rights: Bridging the Implementation Gap”	25 & 26 January	Petaling Jaya
Round Table on Sustainable Wood – organised by Standing Committee on Infrastructure and the Environment, Dutch Parliament	2 February	The Hague, The Netherlands
PEFC Seminar: <i>Your Sustainability Initiative</i> – organised by Spicers Paper (M) Sdn. Bhd.*	24 February	Subang Jaya
<i>Sustainable Opportunities for Your Business: The Why, What and How</i> – organised by Spicers Paper (Singapore) Pte. Ltd. And DNV Business Assurance Pte. Ltd.*	25 February	Singapore
Third Sub Working Group on Forestry and Timber under Malaysia-Australia Agricultural Cooperation Working Group Meeting (MAACWG)	22-24 March	Hobart, Australia
PEFC Revision Working Group Meeting	23-24 May	Geneva, Switzerland
Forest Stewardship Council (FSC) Sixth General Assembly	25 June - 1 July	Kota Kinabalu
Twelfth Seminar on Current International Issues Affecting Forestry	6 July	Chiang Mai, Thailand
Fourteenth Meeting of ASOF	7-8 July	Chiang Mai, Thailand
TPAC Appeal Hearing	5 August	Utrecht, The Netherlands
Conference on “Environment in South East Asia and the European Union: The Sustainability Conservation of Malaysian Forestry” organised by MTEULINK and the National Higher Education Research Institute (IPPTN)	14 September	Kuala Lumpur
ITTO’s 25 <sup>th</sup> Anniversary Symposium	28 October	Yokohama, Japan
PEFC Stakeholder Dialogue	9 November	Montreux, Switzerland
PEFC Members Session	10 November	Montreux, Switzerland
PEFC 15 <sup>th</sup> General Assembly	11 November	Montreux, Switzerland
Forty-Seventh Session of International Tropical Timber Council (ITTC) and Associated Sessions of the Committees	14-19 November	Guatemala City, Guatemala
High Level Forum on <i>Legal Timber and Timber Product</i> organised by EU Delegation to Malaysia	17 November	Kuala Lumpur

MTCC participated in the following events within Malaysia in 2011:

Local Conferences/Seminars/Workshops/Meetings	Date	Venue
YB Minister's Discussion with Non Governmental Organisations (NGOs)	21 January 18 February	Kota Kinabalu Miri
YB Minister's Dialogue with Timber Industry	24 January	Putrajaya
Technical Working Committee of the C-BioD project	23 March	Kuala Lumpur
Launch of MTC Global Woodmart 2012	4 April	Kuala Lumpur
Technical Working Group on Malaysian Sustainable Palm Oil*	18-19 April	Bangi
Dato' Ismail Awang Forestry Forum 2011 - <i>Seeds to Trees: Nurturing Minds</i>	19 April	Putrajaya
MTC Timber Talk on Going "Green" with timber	5 May	Kuala Lumpur
MTC Lecture Series on Eco Label to Communicate your Green Products – Another Option for the Timber Industry	12 May	Kuala Lumpur
Forum 2011 STANDARDS MALAYSIA with Certification Bodies in Malaysia	8 June	Kuala Lumpur
Dinner talk on Technology in forest monitoring by TI-Malaysia	28 June	Kuala Lumpur
Malaysian Forest Dialogue	6-7 July	Kuala Lumpur
Sixth Multi-stakeholder briefing on FLEGT VPA	8 July	Kuala Lumpur
Industry Update 2011: Challenges & Opportunities by TI Malaysia*	12 July	Kuching
Hands on training – Google Earth by TI Malaysia	18 July	Kuala Lumpur
MTC Timber Talk on "Timber as a Sustainable Building Material"	26 July	Kuala Lumpur
Workshop on Technology that Promotes Transparent Timber Trade in Asia and the Pacific Region organised by TRAFFIC*	27-29 July	Kuala Lumpur
Workshop on <i>Forest Cover Analysis</i> organised by TI Malaysia	11 August	Kuala Lumpur
International Symposium on <i>Costs and benefits of REDD plus: What, Who, How and When?</i> Organised by Hiroshima University, United Nations University, Forest Research Institute Malaysia (FRIM), Forestry and Forest Products Research Institute (FFPRI) and Research Institute for Humanity and Nature (RIHN)	19 September	Kuala Lumpur
Workshop on Analysis of Land Owner and Forest Management and Chain of Custody Certification organised by FRIM	22 September	Kuala Lumpur
Briefing Session: ITTO, World Bank and FAO – Certification and Sustainable Management of Natural Tropical Forest – Lessons Learnt? Organised by MTC	10 October	Kuala Lumpur

## SIGNIFICANT EVENTS

Local Conferences/Seminars/Workshops/Meetings	Date	Venue
Industry Briefing and Clinic on Enhancing the Bankability and Sustainability Practices of the Timber and Furniture Entrepreneurs Malaysia organized by MTIB and HSBC *	12 October	Kuala Lumpur
Training on Sustainable Management of the Environment – Meeting the requirements through Social Impact Assessment organised by ENSEARCH	11-12 October	Kuala Lumpur
MTC Familiarisation Programme (field segment)	20 October	Ipoh
MTC Familiarisation Programme for Trade Journalists*	26 October	Kuala Lumpur
Capacity building for Compliance with Requirements for certification under MTCS organised by MTIB	15 November	Kuala Lumpur
Technical Seminar on “ <i>Timber in Construction</i> ” organised by MTIB	17 November	Kuala Lumpur
Seminar on “Rights Denied – The Orang Asli Struggle Continues!” organised by Bar Council	19 November	Kuala Lumpur
Technical Working Committee of the C-BioD project	22 November	Kuala Lumpur
National Seminar on Social Forestry: <i>Raising Quality of Community Life and Sustainable Forest Management</i> organised by Natural Resource and Environmental Board, Sarawak	30 November	Lawas
19 <sup>th</sup> Malaysian Forestry Conference	5-9 December	Malacca
The Forestry Forum “ <i>The Forest Factor in Sustainable Development</i> ” organised by TI Malaysia	15 December	Subang Jaya
Capacity building for Compliance with Requirements for certification under MTCS organised by MTIB*	15 December	Ipoh

\* MTCC made presentation on MTCS and related activities at the event

MTCC participated in the following fairs/exhibitions in 2011:

Fairs/Exhibitions	Date	Venue
SPOGA 2011	3-5 September	Cologne, Germany
MICCOS 2011	28-29 October	Serdang
German Timber Day	2-3 November	Cologne, Germany

## Holders of PEFC Certificate for Chain of Custody

No.	Company	Certificate Number	Date of Issuance of Certificate	Scope of Certification
1	Ta Ann Plywood Sdn. Bhd.	CEF0606A	21-Aug-06	Manufacturing of plywood
2	Antalis (Malaysia) Sdn. Bhd.	SGS-PEFC/ COC-0566	1-Aug-08	Purchase & sales of PEFC paper & paper board
3	Times Offset (Malaysia) Sdn. Bhd.	SGS-PEFC/ COC-0593	17-Aug-08	Purchase of PEFC paper and paper board, processing and sales of PEFC certified books, magazines and printed matter printing using physical separation method based on Appendix 1, Annex 4, Section 2, (certified material) of the chain of custody standard
4	Jinmei Industrial Sdn. Bhd.	SGS-PEFC/ COC-0933	7-Jul-09	Purchase of PEFC certified paper rolls and semi finished paper sheets. Process & sales of PEFC certified tissue paper, diary & stationeries products
5	M-Forest Sdn. Bhd.	SGS-MTCS/ COC-0008 ( <i>withdrawn w.e.f 28-Dec-11</i> )	13-Oct-08	Purchasing of MTCS certified sawn timber, mouldings and laminated lumber board, outsourced kiln drying and sales of MTCS sawn timber, mouldings and laminated lumber board using physical separation method
6	Everdure Timber (M) Sdn. Bhd.	SGS-MTCS/ COC-0014 ( <i>withdrawn w.e.f. 28-Dec-11</i> )	2-Dec-08	Trading of MTCS certified sawn timber sourced from MTCS certified suppliers (using physical separation method)
7	Taiko Resources Sdn. Bhd.	SGS-MTCS/ COC-0018 ( <i>withdrawn w.e.f 10-Oct-10</i> )	30-Dec-08	Trading of MTCS certified sawn timber sourced from MTCS certified suppliers, using physical separation method
8	Kilang Papan Wakaf Tapai Sdn. Bhd.	SGS-MTCS/ COC-0022 ( <i>withdrawn w.e.f 24-Feb-11</i> )	19-Jan-09	Purchase of MTCS certified logs, sawmilling (using physical separation method) and sales of MTCS certified sawn timber
9	Southern Asia Timber Sdn. Bhd.	SGS-MTCS/ COC-0030 ( <i>withdrawn w.e.f 9-Feb-11</i> )	10-Feb-09	Purchase and sales of MTCS certified sawn timber using physical separation method.
10	World Parade Sdn. Bhd.	SGS-MTCS/ COC-0034 ( <i>withdrawn w.e.f 9-Nov-10</i> )	20-Feb-09	Purchase of certified logs, processing using physical separation method and sales of MTCS certified sawn timber
11	Syarikat Kayu-Kayan Baoli Sdn. Bhd.	SGS-MTCS/ COC-0039	10-March-09	Purchase of MTCS certified logs, sawmilling (using physical separation method) and sales of MTCS certified sawn timber

No.	Company	Certificate Number	Date of Issuance of Certificate	Scope of Certification
12	Promptcon Enterprise Sdn. Bhd.	SGS-MTCS/ COC-0043 <i>(withdrawn w.e.f 26- April-10)</i>	13-Apr-09	Purchase of MTCS certified sawn timber, particle board, MDF, plywood, veneer and gatoply paper, processing (using physical separation method) and sales of MTCS certified moulding products customized timber profiles and garden furniture
13	Exsell Corporation Sdn. Bhd.	SGS-MTCS/ COC-0051 <i>(withdrawn w.e.f 4 -July-10)</i>	5-June-09	Trading of MTCS certified sawn timber, sourced from MTCS certified suppliers using physical separation method
14	Seng Chap Wah Timber Merchant Sdn. Bhd.	SGS-MTCS/ COC-0054 <i>(withdrawn w.e.f 5- May-10)</i>	16-June-09	Purchase of certified logs, sawmilling (using physical separation method) and sales of MTCS certified sawn timber
15	Hang Tuah Sawmills Berhad	SGS-MTCS/ COC-0057 <i>(withdrawn w.e.f 29 -April-10)</i>	29-June-09	Purchase of MTCS certified logs, sawmilling (using physical separation method) and sales of MTCS certified sawn timber
16	Bortim Sdn. Bhd.	SGS-MTCS/ COC-0060	20-July-09	Trading of MTCS certified sawn timber sourced from MTCS certified suppliers using physical separation method
17	Perfect KL Timber Trading Sdn. Bhd.	SGS-MTCS/ COC-0066 <i>(withdrawn w.e.f. 22-Jun-10)</i>	22-July-09	Purchase of MTCS certified logs, sawmilling (using physical separation method) and sales of MTCS certified sawn timber
18	Golden Pharos Doors Sdn. Bhd.	SGS-MTCS/ COC-0069 <i>(withdrawn w.e.f 16-May-11)</i>	27-July-09	Purchase of MTCS certified sawn timber, finger jointed timber, manufacturer (using physical separation method) and sales of MTCS certified doors and doors frames
19	Kwong Yuen Sang Sawmill Sdn. Bhd.	SGS-MTCS/ COC-0087 <i>(withdrawn w.e.f. 21-Jun-10)</i>	20-Oct-2009	Purchase of MTCS certified logs, sawmilling (using physical separation method) and sales of MTCS certified sawn timber
20	Fook Ngiap Sawmill Sdn. Bhd.	FCOC 001	04-Nov-09	Trading of plywood, veneer and blockboard
21	Magna-Foremost Sdn. Bhd.	FCOC 002	04-Nov-09	Manufacture and export of moulded fibreboard door skin

163	Perkayuan C. H. Sdn. Bhd.	FCOC 045	08-Oct-10	Trading (buying and exporting) of sawn timber and solid wood mouldings
164	Roundtree Timber Sdn. Bhd.	FCOC 046	15-Oct-10	Manufacture, sale and export of sawn timber, garden stakes, decking, finger-jointed timber, laminated beams, lattice products and plywood
165	K.T.S. Sdn. Bhd.	SGS-MTCS/COC-0116	18-Oct-10	Purchase of MTCS certified sawn timber, processing and sales of MTCS certified sawn timber and moulding product using physical separation method
166	Leung Huat Timber Industries (M) Sdn. Bhd.	T868288	23-Oct-10	Production of sawn timber and moulding processes
167	Bormill Wood (TRG) Sdn. Bhd.	T890988	23-Oct-10	Production of sawn timber and moulding products

No.	Company	Certificate Number	Date of Issuance of Certificate	Scope of Certification
168	Trentim Wood Sdn. Bhd.	T846488	23-Oct-10	Trading of sawn timber and moulded timber
169	Syarikat Malaysia Wood Industries Sdn. Bhd.	FCOC 047	12-Nov-10	Manufacture and export of 3- ply engineered wood
170	D & R Lumber Sdn. Bhd.	SGS-MTCS/ COC-0117	28-Dec-10	Purchase of MTCS/PEFC certified sawn timber, outsourced kiln drying and manufacture and sales of MTCS/PEFC sawn timber and moulding products using physical separation system
171	Ho Printing (Malaysia) Sdn. Bhd.	SGS-PEFC/ COC-1242	6-Jan-11	Purchase of PEFC certified materials, conversion, printing, out source post press processes and sales of PEFC certified printed products using physical separation method
172	SCK Wooden Industries Sdn. Bhd.	FCOC 048	7-Jan-11	Manufacture and export of solid wood flooring and engineered flooring
173	Yanox Malaysia Sdn. Bhd.	SGS-MTCS/ COC-0118	10-Jan-11	Purchase of MTCS certified logs, sawmill waste, wood chip and sales of MTCS certified wood chip using percentage method
174	Kalabakan Plywood Sdn. Bhd.	SCS-PEFC/ COC-003616	24-Jan-11	This certificate covers the production of plywood using the physical separation and percentage based methods.
175	Ekowood International Berhad	SGS-MTCS/ COC-0120	29-Jan-11	Purchase of MTCS certified sawn timber, veneer, manufacture and sales of MTCS certified engineered hardwood flooring/three ply parquet using percentage based method
176	I-Sofa Sdn. Bhd.	SGS-MTCS/ COC-0119	31-Jan-11	Purchase of MTCS certified sawn timber, manufacture and sales of MTCS certified furniture using physical separation method
177	Shinagawa Sdn. Bhd.	SGS-MTCS/ COC-0121	11-Apr-11	Purchase of MTCS certified logs, sawn timber and sawmill waste. Outsourcing for sawmilling and biomass pellet production, sales of MTCS certified sawn timber, chip wood and biomass pellet
178	Tan Chee Seng Sawmill Sdn. Bhd.	FCOC 049	29-Apr-11	Manufacture and sale of certified sawn timber
179	Ribuan Ceria Sdn. Bhd.	FCOC 050	3-June-11	Trading of sawn timber
180	Uptown Power Sdn. Bhd.	FCOC 051	10-June-11	Trading of sawn timber and solid wood mouldings
181	Behn Mayer International Trading Sdn. Bhd.	SGS-MTCS/ COC-0122	22-June-11	Trading of PEFC certified and PEFC recycled paper and board using physical separation method
182	Bestwin Resources Sdn. Bhd.	FCOC 052	8-July-11	Manufacture of certified sawn timber

No.	Company	Certificate Number	Date of Issuance of Certificate	Scope of Certification
183	Spicers Paper (Malaysia) Sdn. Bhd.	FCOC 053	8-July-11	Trading of PEFC certified paper, paper board and printing materials
184	Major Overseas Trading Timber Sdn. Bhd.	FCOC 054	29-July-11	Manufacture and sales of sawn timber
185	Anson Timber Products Sdn. Bhd.	SGS-MTCS/ COC-0123	15-Aug-11	Purchase and sales of PEFC sawn timber using physical separation method
186	Hexa Viana Sdn. Bhd.	FCOC 055	19-August-11	Trading of sawn timber, solid wood mouldings, finger-jointed and laminated wood
187	Sri Ledang Sdn. Bhd.	SGS-MTCS/ COC-0125	14-Sept-11	Purchase of PEFC certified sawn timber, manufacture and sales of PEFC certified mouldings and finger-jointed products using physical separation method
188	Percetakan Zanders Sdn. Bhd.	SGS-PEFC/ COC-1387	19 Sept-11	Purchase of PEFC certified paper roll & sheets, printing, outsource finishing jobs and sales of PEFC certified book, magazines, journals, brochures and other printed matters using physical separation method
189	Directive Timber Sdn. Bhd.	SGS-MTCS/ COC-0124	21-Sept-11	Purchase and sales of PEFC certified plywood, peeled veneer and medium density fibreboard (MDF) using physical separation method
190	International Paper (Malaysia) Sdn. Bhd.	SGS-PEFC/ COC-1388	22-Sept-11	Purchase and sales of PEFC certified papers and pulps using physical separation method
191	Alam Tropik Sdn. Bhd.	SGS-MTCS/ COC-0126	6-Oct-11	Purchase of PEFC certified logs, sawmilling and sales of PEFC certified sawn timber using physical separation method
192	Tien Wah Press (M) Sdn. Bhd.	SGS-PEFC/ COC-1404	31-Oct-11	Purchase of PEFC certified paper rolls processing, outsourcing and producing of PEFC certified cigarette boxes and general packaging materials using physical separation method
193	Wistra Kayuan Sdn. Bhd.	T925788	24-Nov-11	Production of sawn timber
194	Uni Lumber Sdn. Bhd.	SGS-MTCS/ COC-0127	7-Dec-11	Purchase of certified logs, processing, outsourced kiln drying and sales of PEFC certified sawn timber using physical separation method

Summary: Peninsular Malaysia - 175  
 Sabah - 5  
 Sarawak - 14

**Total PEFC Certificate - 194**

## APPENDIX II

### MTCC Logo Usage Licence Holders

No.	Company	Certificate Number	MTCC Logo Usage Licence No.
1	Pan Resources Sdn. Bhd.	SGS-MTCS/COC-0002	MTCC/31-001
2	M-Forest Sdn. Bhd.	SGS-MTCS/COC-0008	MTCC/31-002
3	Jimwood Sdn. Bhd.	SGS-MTCS/COC-0003	MTCC/31-003
4	Finewood Export Associates Sdn. Bhd.	SGS-MTCS/COC-0007	MTCC/31-004
5	Global Wood Products Sdn. Bhd.	SGS-MTCS/COC-0001	MTCC/31-005
6	Straits Timber Products (Pahang) Sdn. Bhd.	SGS-MTCS/COC-0012	MTCC/31-006
7	Straits Timber Products Sdn. Bhd.	SGS-MTCS/COC-0013	MTCC/31-007
8	Costraco Sdn. Bhd.	SGS-MTCS/COC-0010	MTCC/31-008
9	Euro-CGA Sdn. Bhd.	SGS-MTCS/COC-0011	MTCC/31-009
10	Maran Road Sawmill Sdn. Bhd.	SGS-MTCS/COC-0019	MTCC/31-010
11	Pekan Sawmill Sdn. Bhd.	SGS-MTCS/COC-0016	MTCC/31-011
12	Hian Yoon Timber Industries Sdn. Bhd.	SGS-MTCS/COC-0009	MTCC/31-012
13	Jasa Harapan Sdn. Bhd.	SGS-MTCS/COC-0004	MTCC/31-014
14	Perkayuan Semhing Sdn. Bhd.	SGS-MTCS/COC-0005	MTCC/31-015
