How MTCS Certification Benefits Our Forest and Community

The forest area that our community lives in or adjacent to is certified under the Malaysian Timber Certification Scheme (MTCS). This means it is managed sustainably so that our community, wildlife, and nature can thrive together.

Environmental Benefits
(Principles 5, 6 & 9)

- Wildlife protected
- Healthy forest
- Rare species protected
- Fertile soil
- Forest grows back naturally
- Trees that store carbon
- Clean rivers

Social Benefits
(Principles 2, 3 & 4)

- Our voices are heard
- Land rights are respected
- Clear forest boundaries
- Safer workplaces
- Respect for local traditions
- Stakeholder consultation
- Equal chances for men and women
- Protected cultural and burial sites

Economic Benefits
(Principles 4, 5 & 7)

- Job opportunities
- Access to non-timber forest products
- Skill training
- Income from forest products
- Better forest planning for the future
- Timber harvested sustainably
- Steady timber supply
