PEFC/34-01-01

WHY FOREST CERTIFICATION MATTERS TO OUR COMMUNITY

Because our community lives in or adjacent to a forest management unit certified under the **Malaysian Timber Certification Scheme (MTCS)**, we benefit from:

Protection of water, wildlife, and natural resources we depend on.

Respect for our rights and traditions.

Opportunities for jobs and training from work in the forest management unit.

A forest that continues to give benefits now and in the future.

Date issued: 15 July 2026
